## Creator Web Dashboard

The Creator Web Dashboard is designed to **help creators, entrepreneurs, and business owners comprehensively manage their business accounts**, including claiming and **managing Brand Tags**, managing products along with **Origin Certified Products**—which are certificates that guarantee the authenticity and provenance of products verified by the community—and fully managing business profiles and information. Additionally, this dashboard **provides access to communities, payment features, and reporting**, enabling all business management activities to be conducted seamlessly and efficiently within a single platform, [Kraflab.id](https://kraflab.id).

This guide is specifically created to assist creators in accessing and utilizing all the features available on Kraflab.id, ensuring smooth and optimal account and business management processes.

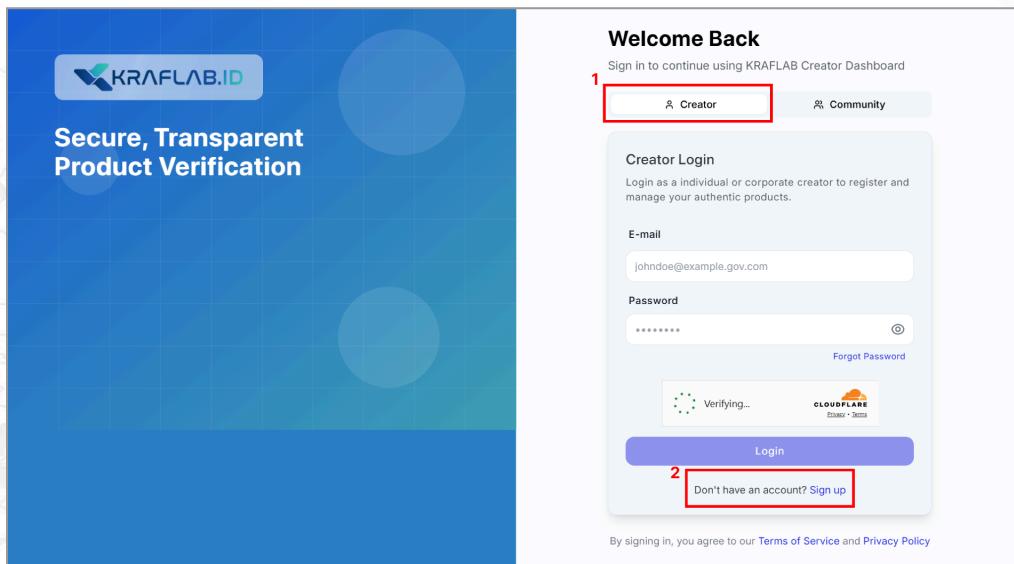

## Registration Account — Creator Web Dashboard

### Account Registration Guide — Through the Creator Login Page

#### Step 1: Access the Login Page

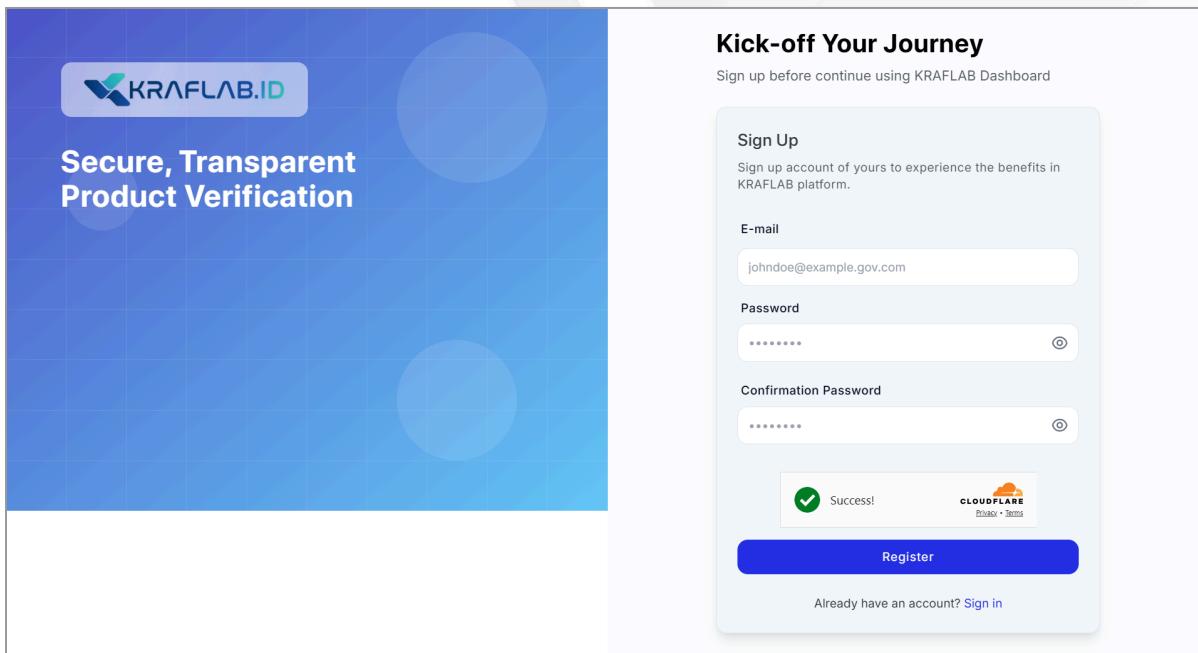

- Open your browser and go to the URL: <https://creator.kraflab.id/auth/login>

#### Step 2: Select the Creator Tab and Click the Sign Up Button

- On the login page, there are two tab options: Creator and Community.
- Select the Creator tab to register as a creator.**
- If you do not have a **Creator** account yet, click the **Sign up** link located below the login button.

### Step 3: Fill Out the Registration Form

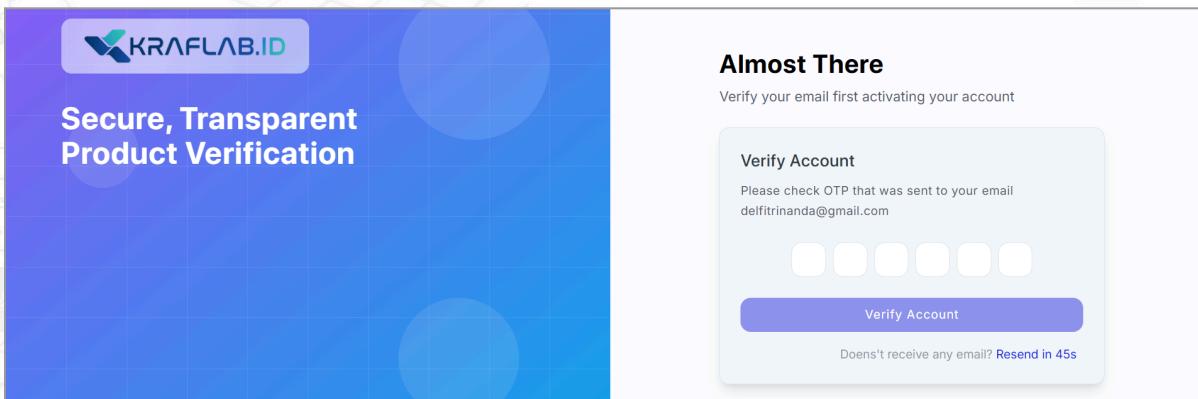

- Fill in the required information on the registration form:
  - E-mail:** Enter an active email address that will be used for login.
  - Password:** Create a secure and memorable password.
  - Confirmation Password:** Re-enter the password for verification.
  - Complete the **CAPTCHA security verification**.

### Step 6: Click the Register Button

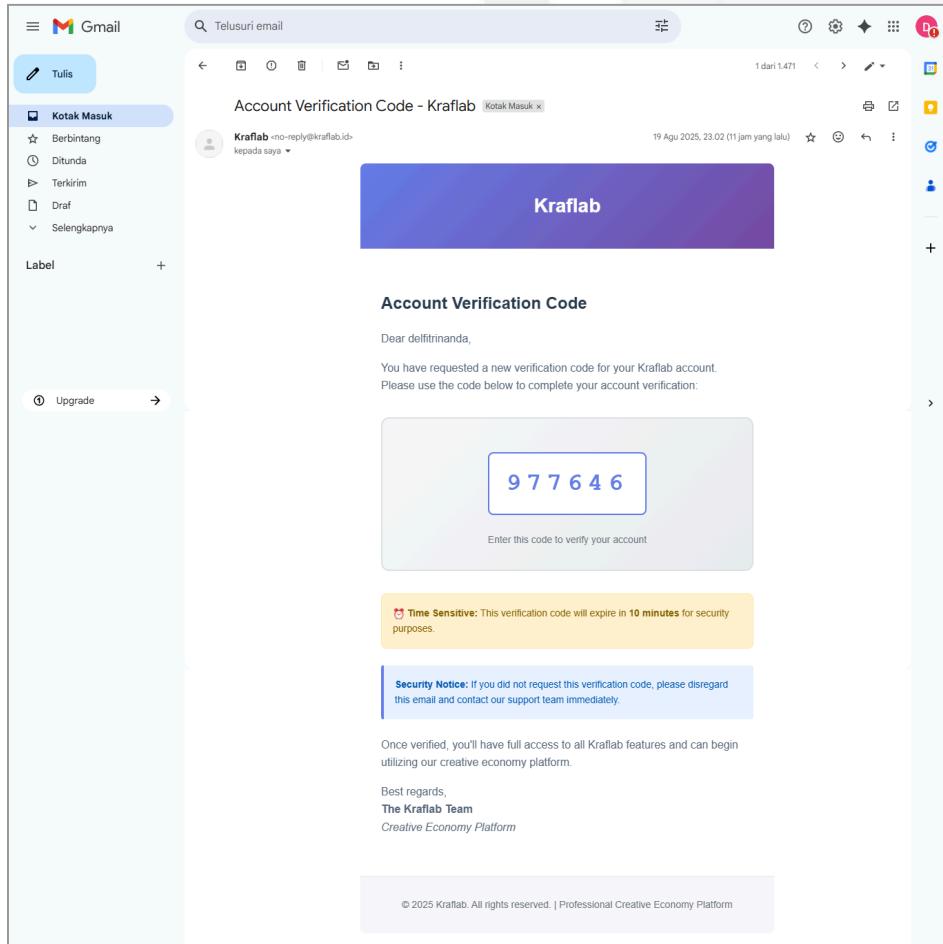

- After all the data is correctly filled in, click the **Register** button to complete the registration.

### Step 7: Verify Your Account via OTP Code

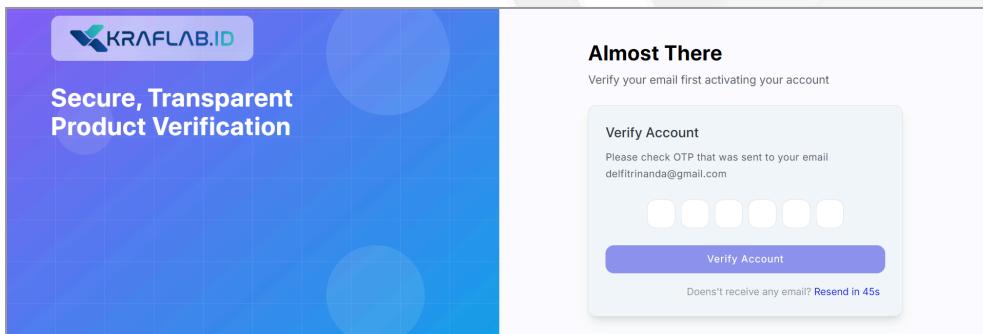

- After clicking the Register button, a **notification message will appear informing you that the registration was successful** and instructing you to check your email for the verification process.

- Check your **email inbox** (including the spam/junk folder) to find the email containing the **OTP code**, as shown in the example image below:

- Enter the **6-digit OTP code** into the designated field on the verification page.

### Step 8: Click the Verify Account Button

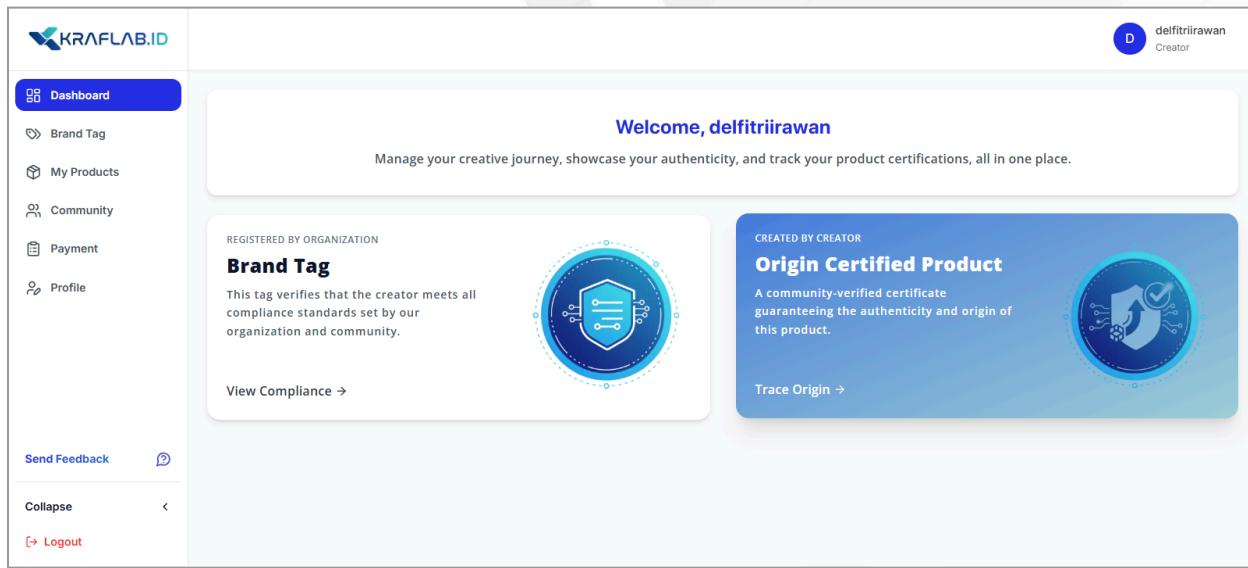

- Click the **Verify Account** button to confirm and activate your account.
  - If the OTP code is valid, your account will be activated and ready to use.
  - **If you do not receive the OTP email**, use the **Resend** feature available on the verification page. The resend button usually becomes active after a countdown (e.g., 45 seconds).

### Step 9: Account Successfully Registered

- After completing the verification process successfully, **your registered creator account can be used to log in on the Creator Login page**. You can now start managing your profile, creating a business identity, and utilizing various product verification features available on the platform.

## Dashboard

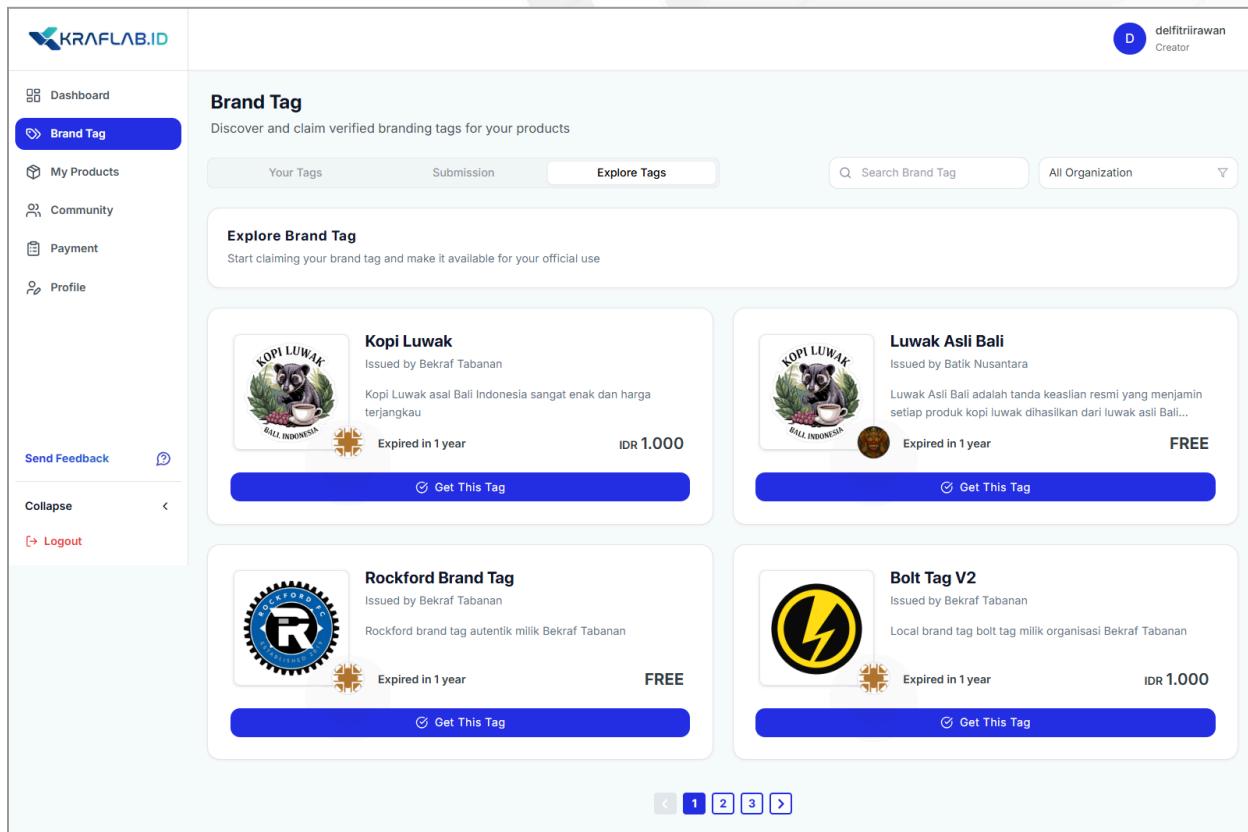

The screenshot shows the Kraflab.id dashboard. On the left, a sidebar menu includes 'Dashboard' (highlighted in blue), 'Brand Tag', 'My Products', 'Community', 'Payment', and 'Profile'. Below the sidebar are buttons for 'Send Feedback' and 'Logout'. The main content area features a 'Welcome, delfitrirawan' message and a sub-instruction: 'Manage your creative journey, showcase your authenticity, and track your product certifications, all in one place.' Two main sections are displayed: 'REGISTERED BY ORGANIZATION' (Brand Tag) and 'CREATED BY CREATOR' (Origin Certified Product). The Brand Tag section includes a 'View Compliance' button and a circular icon with a shield. The Origin Certified Product section includes a 'Trace Origin' button and a circular icon with a checkmark. The top right corner shows a user profile for 'delfitrirawan' (Creator).

**Dashboard** is the main page that appears after you log into the system. This page provides a concise overview and quick access to the main features on Kraflab.id.

**Brand Tag**, this section displays the status of your Brand Tags—official labels issued by the organization. These Brand Tags ensure that you have met all compliance standards set, including legal aspects, quality, and production requirements.

**Origin Certified Product (OCP)**, in this section, you can manage product certificates that have been verified by the community. These certificates serve as **guarantees of authenticity and provenance for your products**, helping customers and business partners trust the genuineness and quality of the products you offer.

## Brand Tag

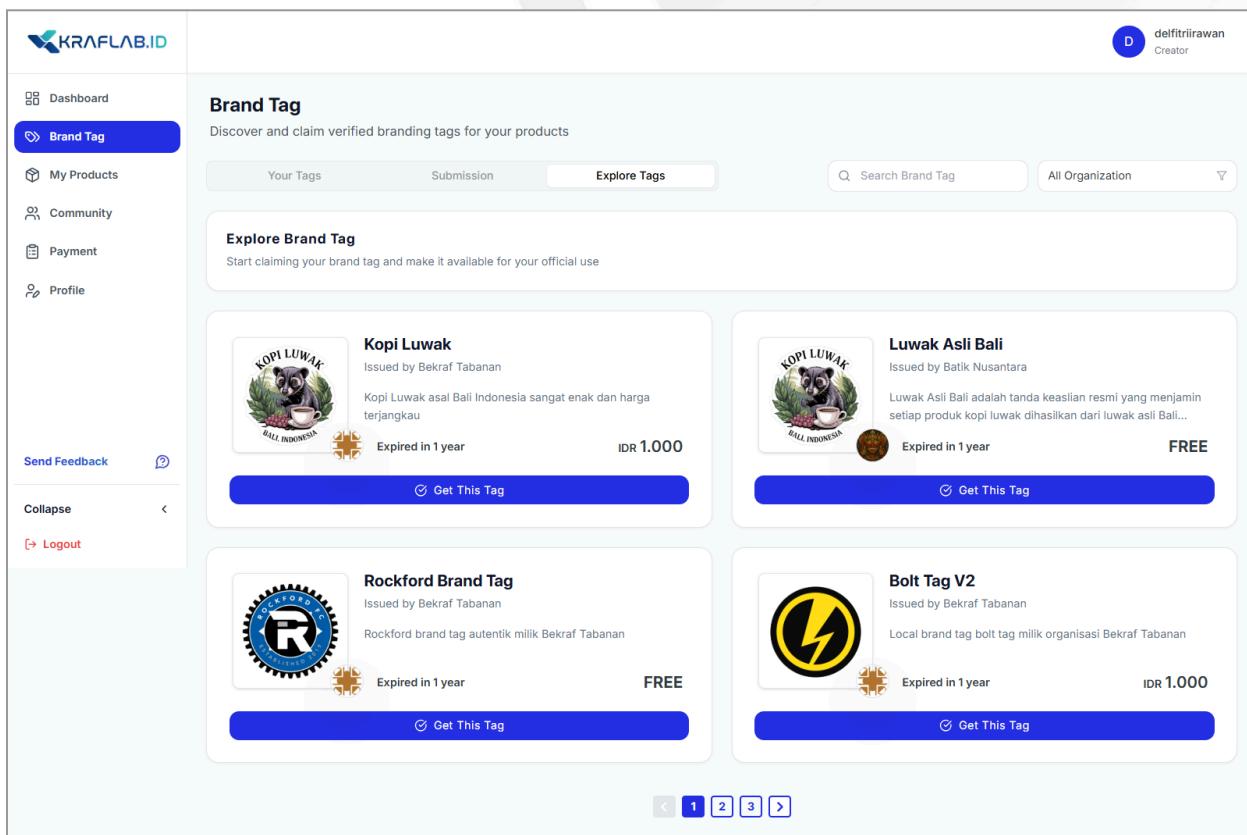

**Brand Tag feature** is an official license/label issued by the **Organization Admin**, allowing creators or brands to use verified Brand Tags on their products.

Within the **Brand Tag** menu, there are:

- **Tab Explore Tags:** a catalog of Brand Tags available for claim (as shown in the screenshot). Includes a Brand Tag search bar to find Brand Tags by name or tagline.
- **Tab Submission:** displays a list of Brand Tags currently in the claim process.
- **Tab Your Tags:** lists the Brand Tags you have already claimed.

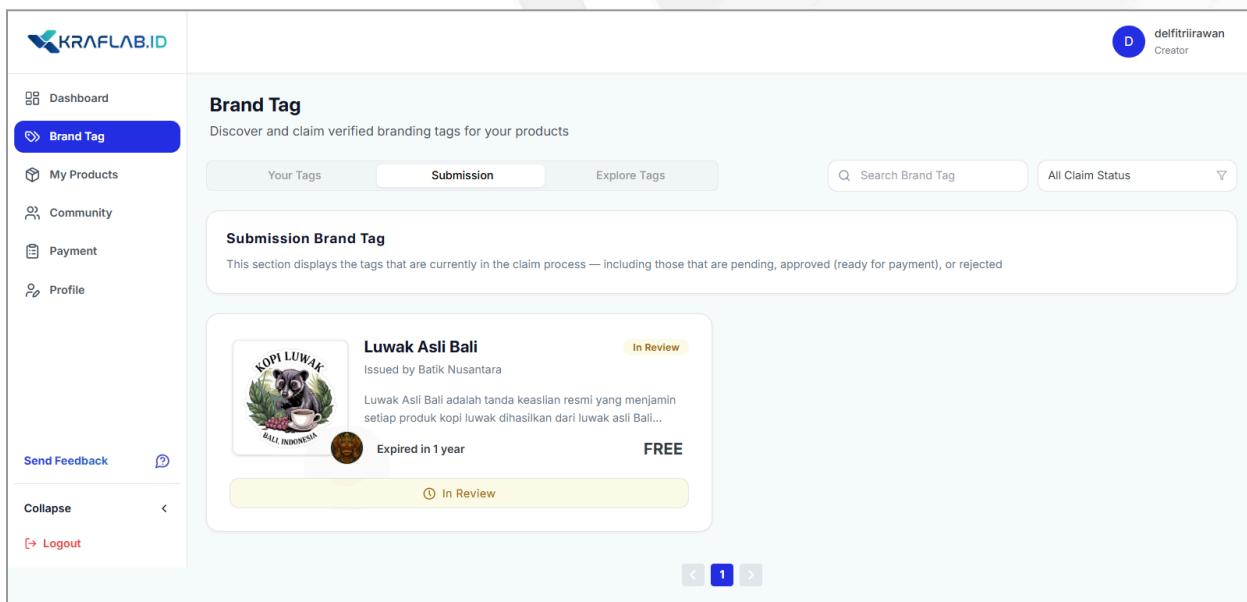

## Tab Explore Tags

**Tab Explore Tag** is a comprehensive catalog listing various official Brand Tags available for claim. Here, you can search for, find, and start claiming Brand Tags that suit your products or business.

- The list of Claimable Tags (as shown in the example image: Kopi Luwak, Rockford) includes the following information:
  - **Issued by**, the name of the issuer/organization that released the Brand Tag.
  - **Price**, the license fee or “Free” if there is no charge.
  - **Description**, a summary of the purpose, criteria, or important information about the Brand Tag.
  - **Expired In**, the remaining validity period of the license.
  - **Get This Tag Button**, initiates the license claim process for the selected Brand Tag.

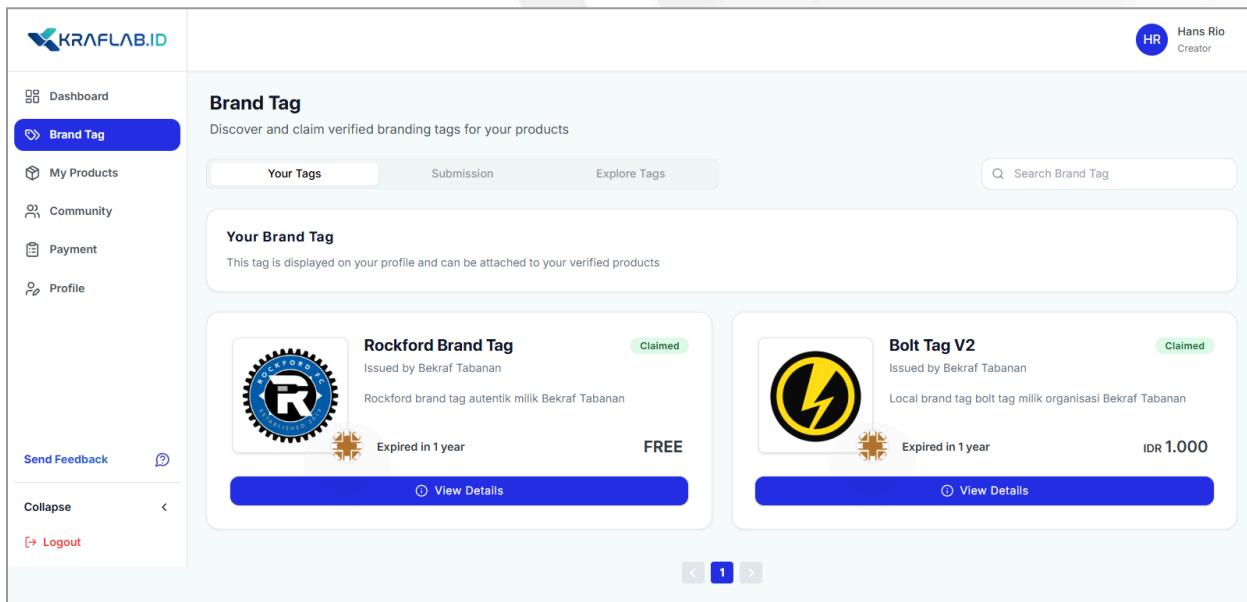

## Tab Submission

**Tab Submission** displays a list of Brand Tags currently in the claim process. The information shown includes claim statuses such as:

- **Pending:** Your claim is awaiting verification or approval.
- **Approved (Ready for Payment):** The claim has been approved, and you can proceed to the payment process if the Brand Tag requires a fee.
- **Rejected:** The Brand Tag claim was not approved and requires follow-up or resubmission.

## Tab Your Tags

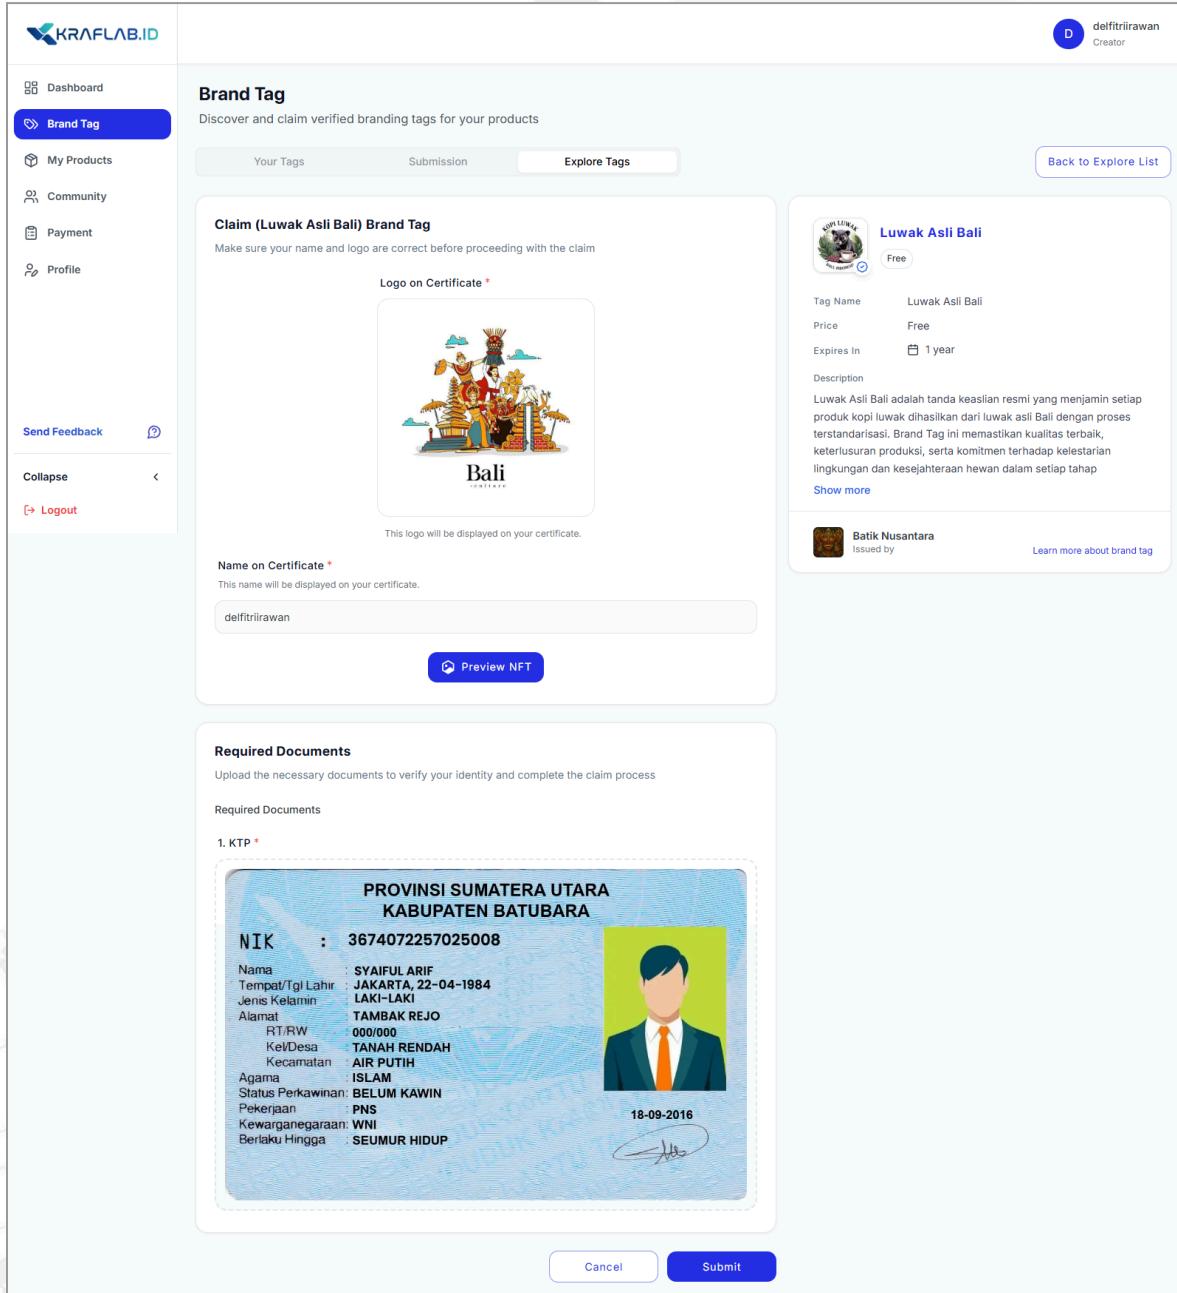

The screenshot shows the Kraflab.id platform interface. The left sidebar has a 'Brand Tag' tab selected. The main content area is titled 'Brand Tag' and describes it as a place to discover and claim verified branding tags for products. It features a search bar and tabs for 'Your Tags', 'Submission', and 'Explore Tags'. Two brand tags are listed: 'Rockford Brand Tag' (free, issued by Bekraf Tabanan) and 'Bolt Tag V2' (IDR 1.000, issued by Bekraf Tabanan). Both tags are marked as 'Claimed'.

**Your Brand Tag** tab serves as the central hub for **managing all Brand Tags that you have successfully claimed and that have been approved by the issuing organization**. The list displayed in this tab consists of **official Brand Tags that you can use as product identities** on the Kraflab.id platform.

## Guide to Claiming a Brand Tag — Free Claim

1. Open the Brand Tag menu.
2. Use the **Search** function to find the Brand Tag name or browse through the list.
3. Click **Get This Tag** on the Brand Tag you want to claim.

The screenshot shows the Kraflab.ID platform interface for claiming a Brand Tag. The left sidebar has a 'Brand Tag' button highlighted in blue. The main content area shows a 'Claim (Luwak Asli Bali) Brand Tag' section. It includes a logo of a traditional Balinese scene and a name input field 'delfitirrawan'. To the right, there is a card for 'Luwak Asli Bali' with details: Tag Name: Luwak Asli Bali, Price: Free, Expires In: 1 year. Below it is a card for 'Batik Nusantara'. At the bottom, there is a 'Required Documents' section showing a sample Indonesian ID card (KTP) for Syaiful Arif, with a 'Cancel' and 'Submit' button.

Once you click **Get This Tag**, the system will display a page like the one shown above. This page is an important step to claim a verified Brand Tag that you want to use for your product. Below are the sections of this page and instructions on how to correctly fill out the claim form:

## 1. Brand Tag Information

On the right side of the page, you can view detailed information about the Brand Tag you are about to claim, including:

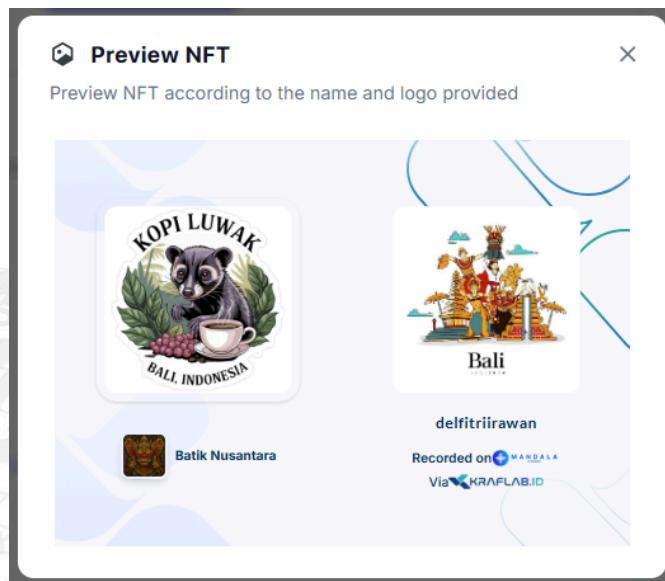

- **Brand Tag Name:** For example, here it is Luwak Asli Bali.
- **Price:** In this example, the Brand Tag is Free.
- **Validity Period (Expires In):** The Brand Tag is valid for 1 year.
- **Description:** A brief explanation about the Brand Tag.
- **Issuer:** The name of the organization or community issuing this Brand Tag, for example, Batik Nusantara.

## 2. Logo and Name on Certificate

In the center of the page, there is a form to ensure that your identity and the logo to be displayed on the certificate are correct:

- **Logo on Certificate:** The creator's or claimant's logo that will be printed on the certificate and used as the official mark.
- **Name on Certificate:** Enter the name you want to appear on the certificate. Make sure this name is the official name or the one you want to use as your identity in the Brand Tag claim.

You can also use the **Preview NFT** button to **see how the digital certificate will look before submitting your claim.**

### 3. Required Supporting Documents

To complete the claim process, you must upload the requested documents as proof of identity and claim validity:

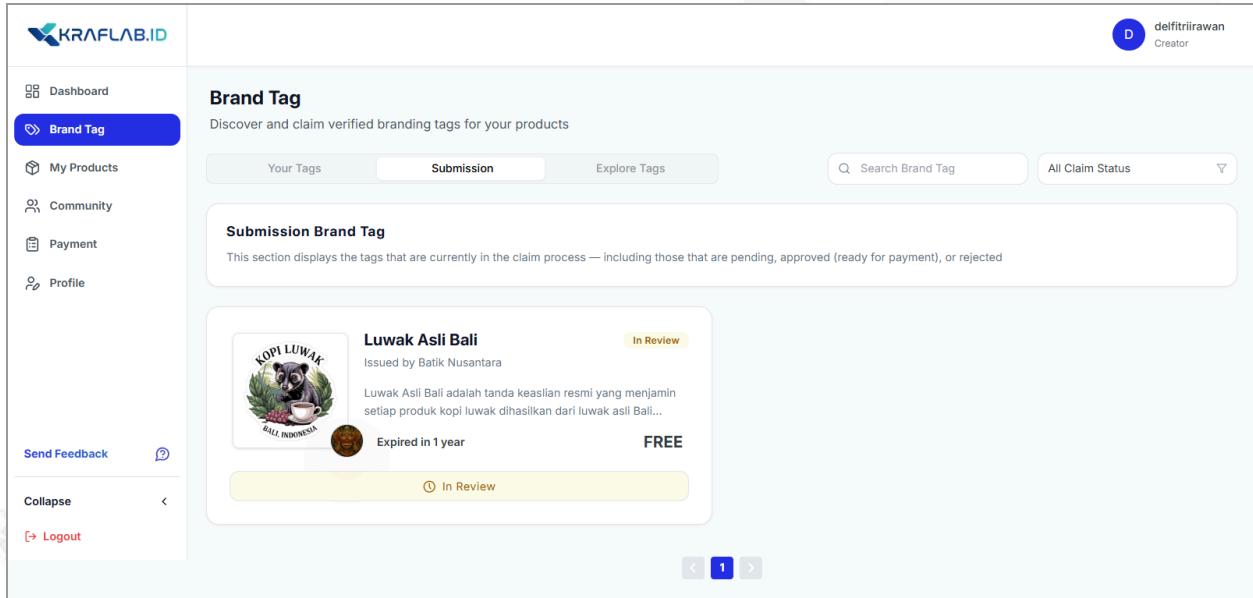

- **ID Card (KTP):** Must be uploaded in PDF, JPG, or PNG format with a maximum size of 5MB.

Ensure the uploaded document is clear and valid to facilitate a smooth verification process.

### 4. Proceed with the Claim Process

Click the **Submit** button to continue your claim process. If you wish to cancel, click the **Cancel** button.

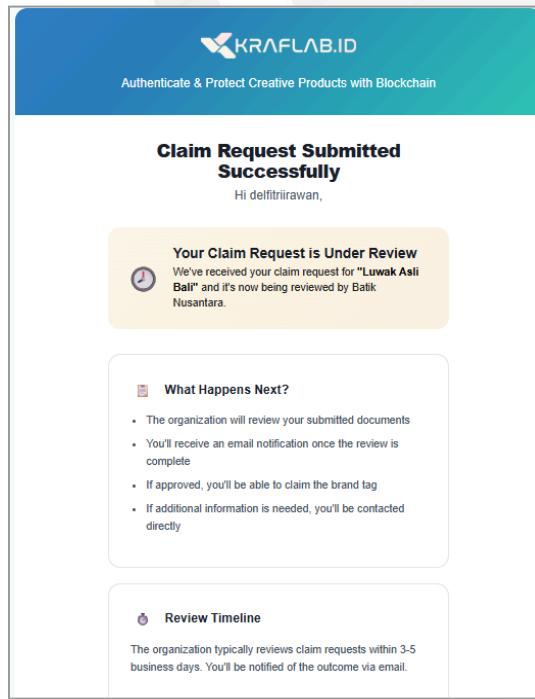

### 5. Review Process

The screenshot shows the Kraflab.ID platform interface for managing brand tags. On the left, a sidebar menu includes 'Dashboard', 'Brand Tag' (which is highlighted in blue), 'My Products', 'Community', 'Payment', and 'Profile'. Below these are 'Send Feedback' and 'Logout' buttons. The main content area is titled 'Brand Tag' and sub-titled 'Discover and claim verified branding tags for your products'. It features tabs for 'Your Tags', 'Submission' (which is active), and 'Explore Tags'. A search bar and a 'All Claim Status' dropdown are also present. A section titled 'Submission Brand Tag' displays a card for a 'Luwak Asli Bali' tag. The card includes an image of a luwak, the text 'Issued by Batik Nusantara', 'Expired in 1 year', and 'FREE'. A yellow button labeled 'In Review' is visible. The top right corner shows a user profile for 'delfitirirawan Creator'.

After successfully submitting your claim, you will receive a notification stating, "**Claim request submitted successfully! Your request is now under review.**" The Brand Tag you claimed will then appear in the **Submission tab**. At this stage, the Brand Tag Issuing Organization will review your claim to verify and decide whether to approve it or not.

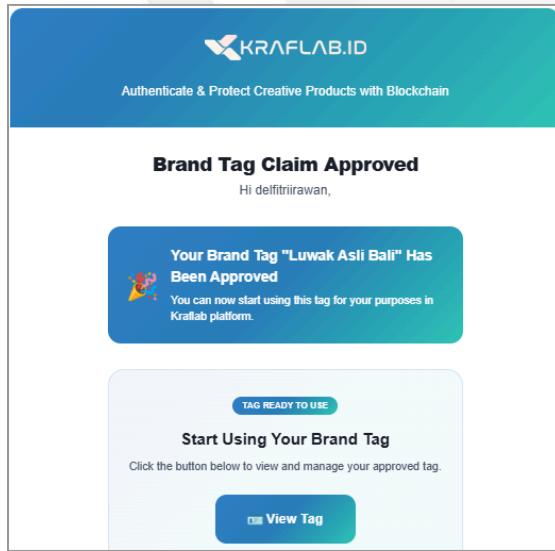

## 6. Receiving Email Notifications

After submitting your claim, you will receive a confirmation email like the one shown above. This email explains that your claim for the Brand Tag, for example, "Luwak Asli Bali," is currently under review by the issuing organization.

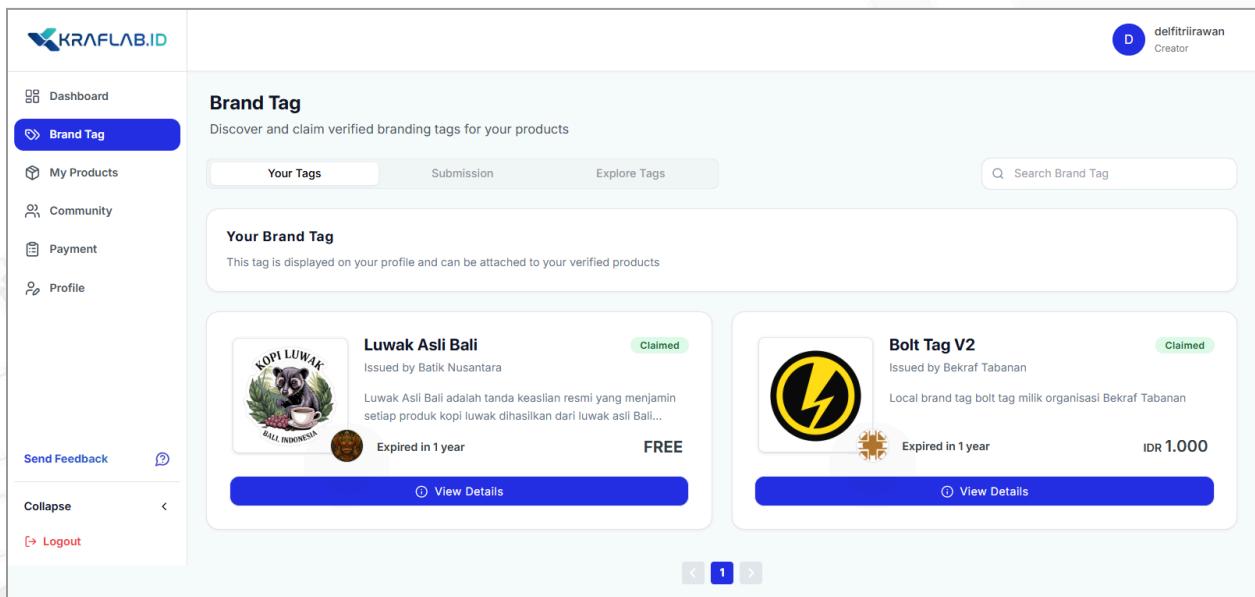

**! Note:** Organizations typically complete the review process within **3-5 business days**. The review results from the Brand Tag Issuing Organization will be communicated via email.

## 7. Successful Claim

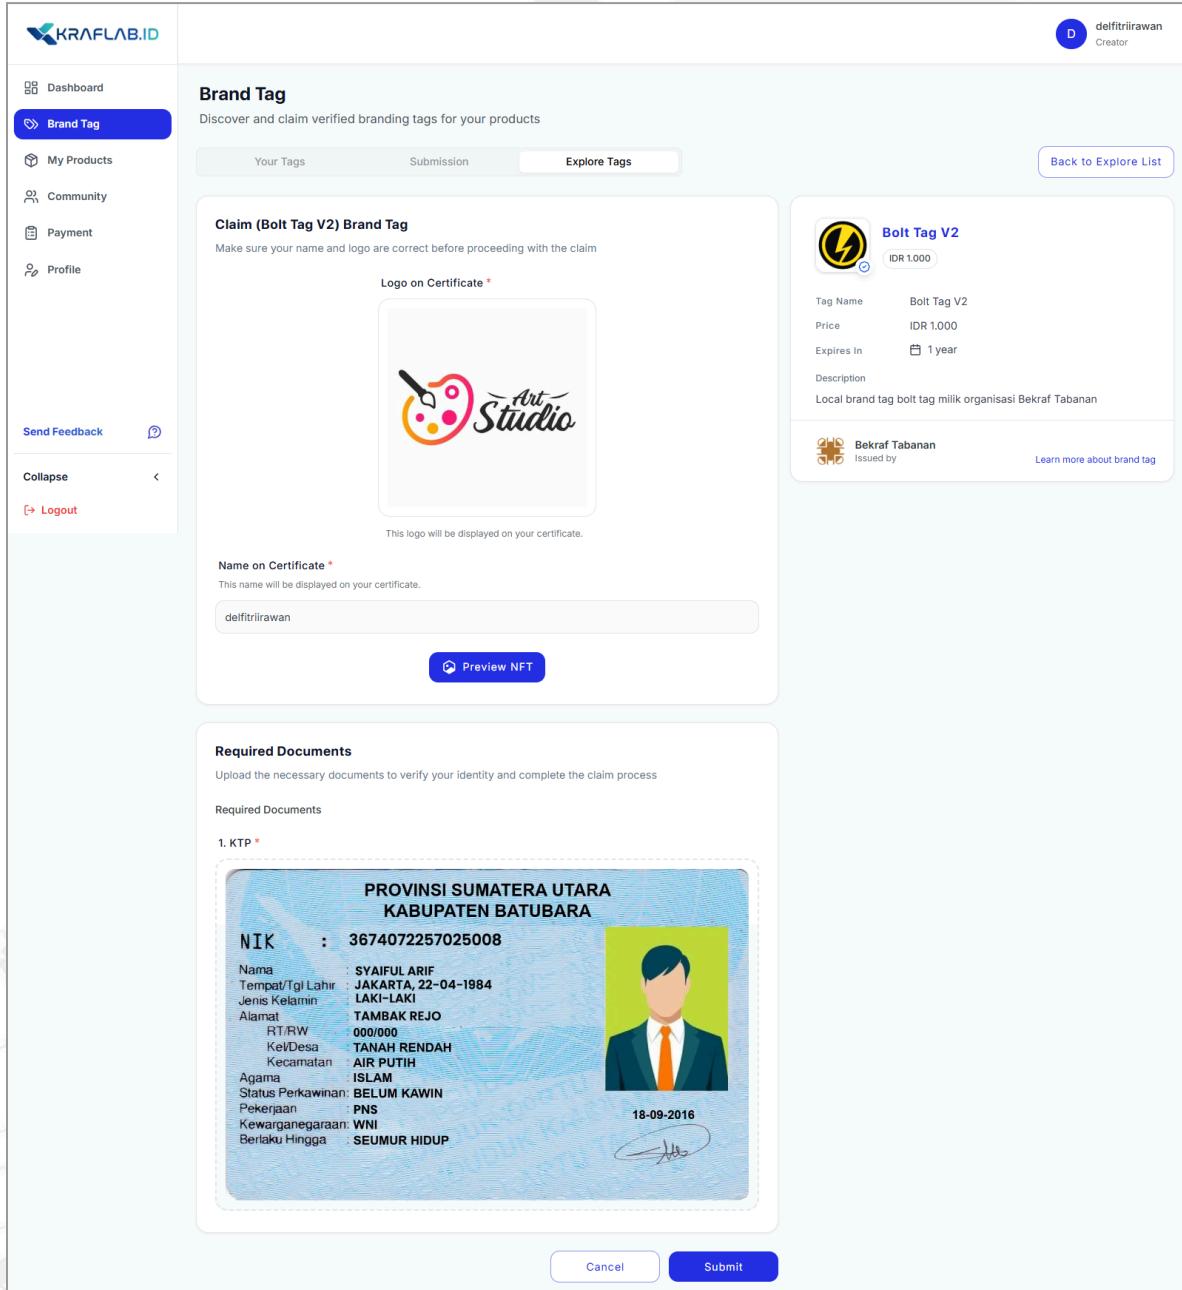

Once your claim is approved, you will receive an official notification email titled "**Brand Tag Claim Approved**," as shown above. This email informs you that your Brand Tag, "Luwak Asli Bali," has been successfully verified and approved. **You can then use this Brand Tag for your products or business** on the platform.

The Brand Tag status will change to **Claimed** and will appear under the **Your Tags tab**.

## Guide to Claiming a Brand Tag — Payment Claim (Paid Claim)

1. Open the Brand Tag menu.
2. Use the **Search** function to find the Brand Tag name or browse through the list.
3. Click **Get This Tag** on the Brand Tag you want to claim.

**Brand Tag**  
Discover and claim verified branding tags for your products

**Claim (Bolt Tag V2) Brand Tag**  
Make sure your name and logo are correct before proceeding with the claim

Logo on Certificate \*

**Required Documents**  
Upload the necessary documents to verify your identity and complete the claim process

Required Documents

1. KTP \*

Price: IDR 1,000  
Expires In: 1 year  
Description: Local brand tag bolt tag milik organisasi Bekraf Tabanan

**Bekraf Tabanan**  
Issued by: Learn more about brand tag

Once you click **Get This Tag**, the system will display a page like the one shown above. This page is an important step to claim a verified Brand Tag that you want to use for your product. Below are the sections of this page and instructions on how to correctly fill out the claim form:

## 1. Brand Tag Information

On the right side of the page, you can view detailed information about the Brand Tag you are about to claim, including:

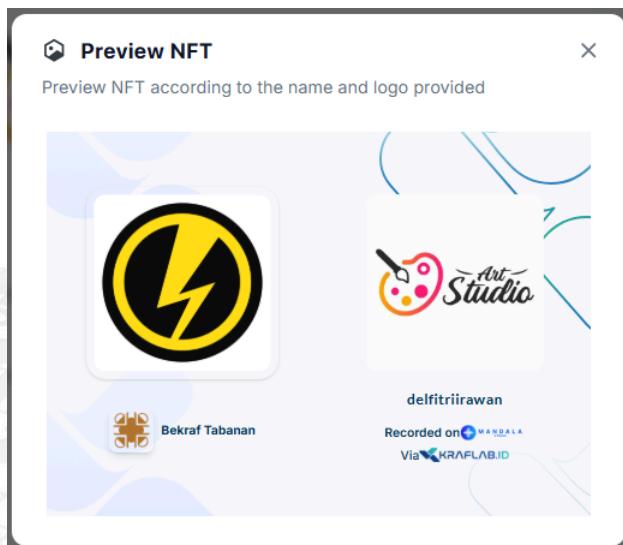

- **Brand Tag Name:** For example, here it is Bolt Tag V2.
- **Price:** In this example, the Brand Tag has a fee that must be paid.
- **Validity Period (Expires In):** The Brand Tag is valid for 1 year.
- **Description:** A brief explanation about the Brand Tag.
- **Issuer:** The name of the organization or community issuing this Brand Tag, for example, Batik Nusantara.

## 2. Logo and Name on Certificate

In the center of the page, there is a form to ensure that your identity and the logo to be displayed on the certificate are correct:

- **Logo on Certificate:** The creator's or claimant's logo that will be printed on the certificate and used as the official mark.
- **Name on Certificate:** Enter the name you want to appear on the certificate. Make sure this name is the official name or the one you want to use as your identity in the Brand Tag claim.

You can also use the **Preview NFT** button to see how the digital certificate will **look before submitting your claim**.

### 3. Required Supporting Documents

To complete the claim process, you must upload the requested documents as proof of identity and claim validity:

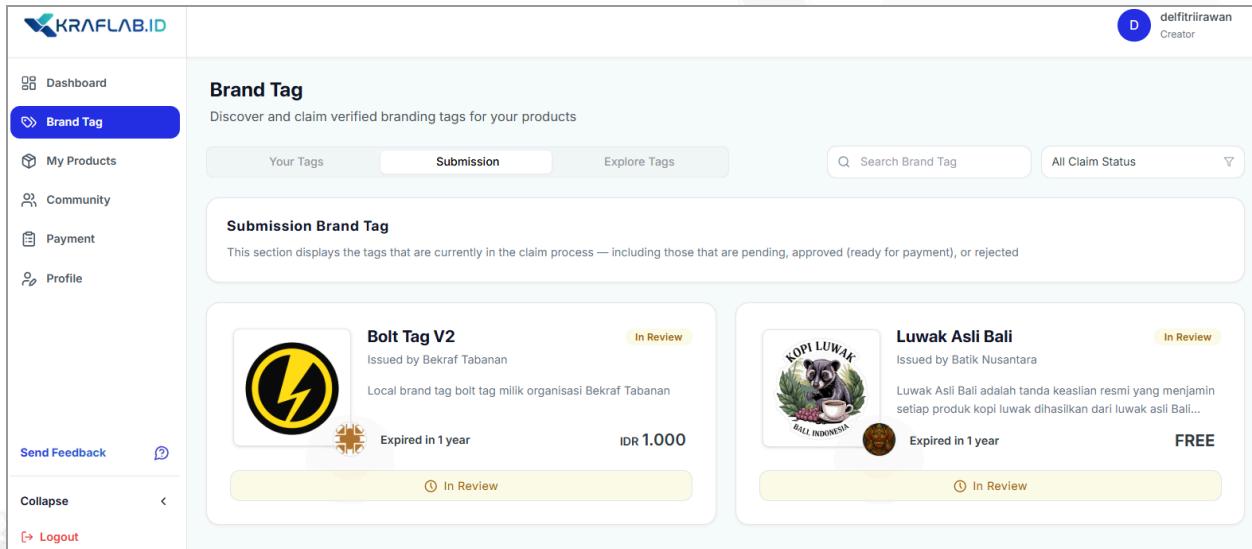

- ID Card KTP (Kartu Tanda Penduduk)** Must be uploaded in PDF, JPG, or PNG format with a maximum size of 5MB.

Ensure the uploaded document is clear and valid to facilitate a smooth verification process.

### 4. Proceed with the Claim Process

Click the **Submit** button to continue your claim process. If you wish to cancel, click the **Cancel** button.

### 5. Review Process

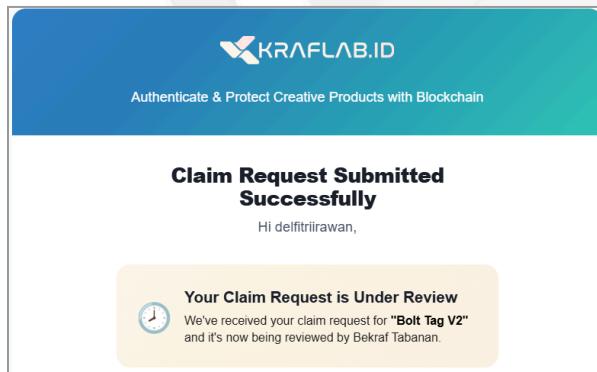

The screenshot shows the Kraflab.ID platform interface for managing brand tags. The left sidebar has a 'Brand Tag' button highlighted in blue. The main area shows a 'Submission Brand Tag' section with two items:

- Bolt Tag V2** (Issued by Bekraf Tabanan, IDR 1.000, In Review)
- Luwak Asli Bali** (Issued by Batik Nusantara, FREE, In Review)

Both items show an 'In Review' status.

After successfully submitting your claim, you will receive a notification stating, "**Claim request submitted successfully! Your request is now under review.**" The Brand Tag you claimed will then appear in the **Submission tab**. At this stage, the Brand Tag Issuing Organization will review your claim to verify and decide whether to approve it or not.

## 6. Receiving Email Notifications

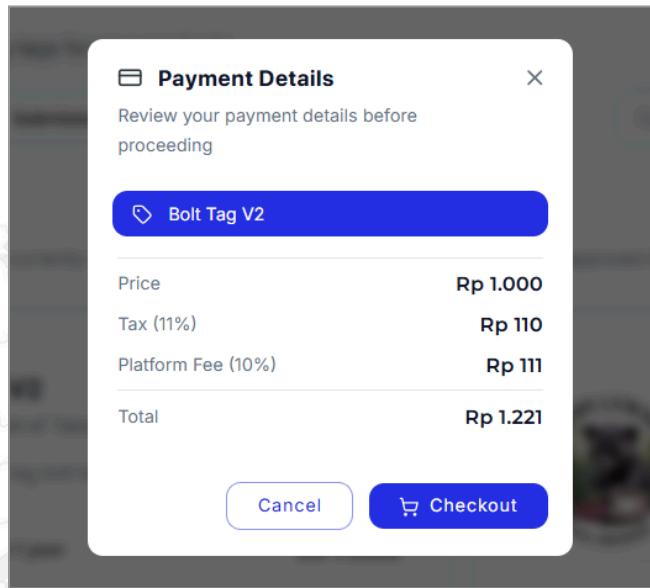

After submitting your claim, you will receive a confirmation email like the one shown above. This email explains that your claim for the Brand Tag, for example, "Luwak Asli Bali," is currently under review by the issuing organization.

**! Note:** Organizations typically complete the review process within **3-5 business days**. The review results from the Brand Tag Issuing Organization will be communicated via email.

## 7. Claim Approval and Payment Process

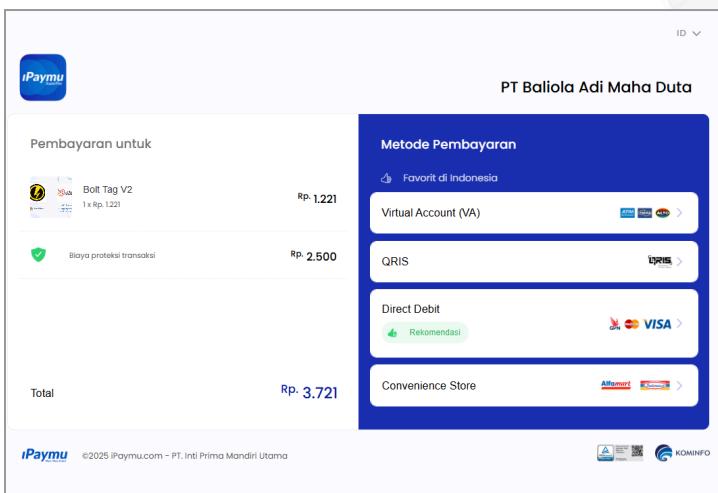

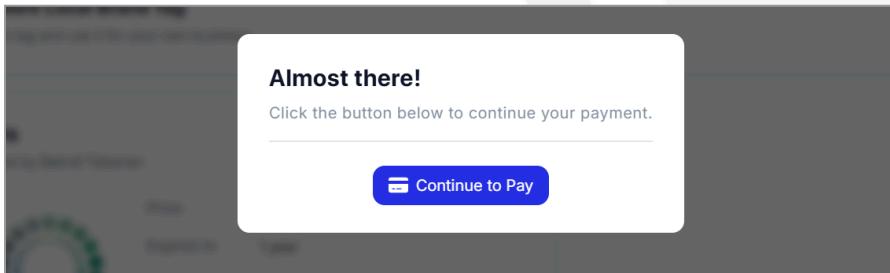

Once the Brand Tag Issuing Organization approves your claim, the claim status will change to **Approved** and appear in the **Submission tab**. Click the **Complete Payment to Claim This Tag** button to proceed to the payment process.

- Details include: the Brand Tag price, tax, platform fee, any applicable discounts, and the total amount payable.
- You can enter a **Promo Code** if you have a valid discount code to reduce the total payment.
- Click the **Checkout** button to continue to the payment process.

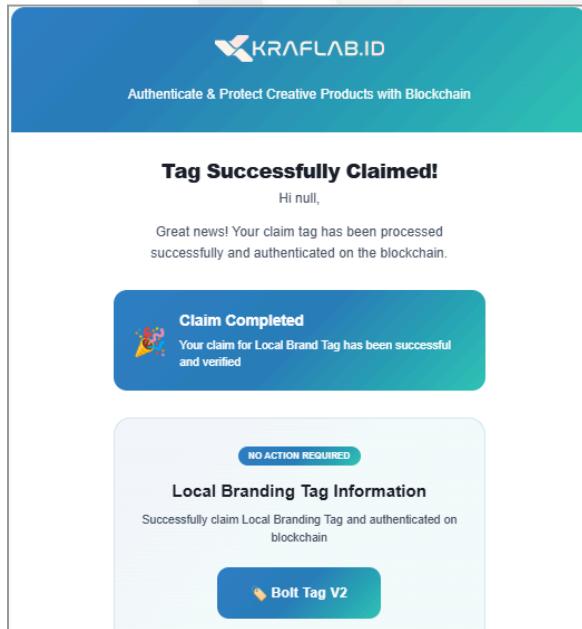

## Payment Process

After clicking **Checkout**, a confirmation message **“Almost there!”** will appear with a **Continue to Pay** button. Click **Continue to Pay** to proceed to the payment gateway provided by a third party, **iPaymu**.

- On the payment page, you can choose from available payment methods such as:
  - Virtual Account (VA)
  - QRIS
  - Direct Debit (Recommended)
  - Payment at Convenience Stores (e.g., Alfamart, Indomaret)

- Follow the payment instructions according to your chosen method until the process is complete.

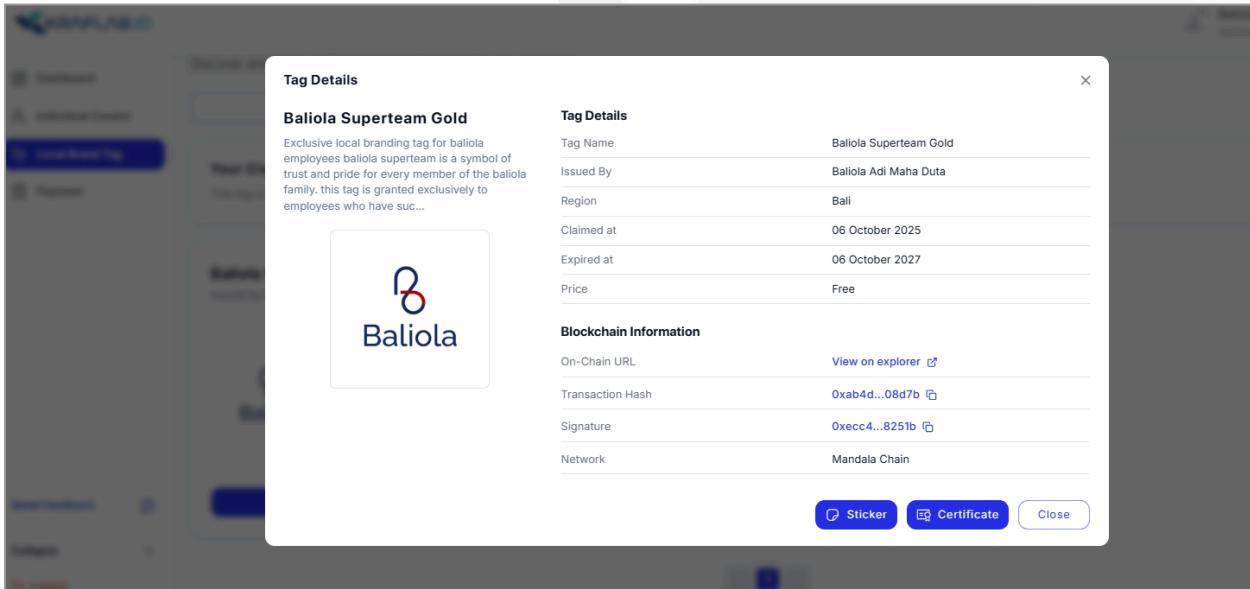

Once the payment is successfully verified, you will receive an **email notification** confirming that your **Brand Tag claim has been successful** and **that the Brand Tag can now be used for your products or business** on the platform.

## Guide to Printing Certificate and Digital QR Code Sticker

### 1. Click View Details

After claiming a Brand Tag, users can view the complete details of the Brand Tag by clicking the **View Details** button. A pop-up will appear displaying comprehensive information about the Brand Tag, as shown in the image below:

### 2. Click the Certificate Button

The certificate serves as proof of legality and authenticity, providing transparent verification through a QR Code and blockchain. It also makes it easy for users to save and print the certificate according to their business or promotional needs.

Digital Certificate View The digital certificate will display the following:

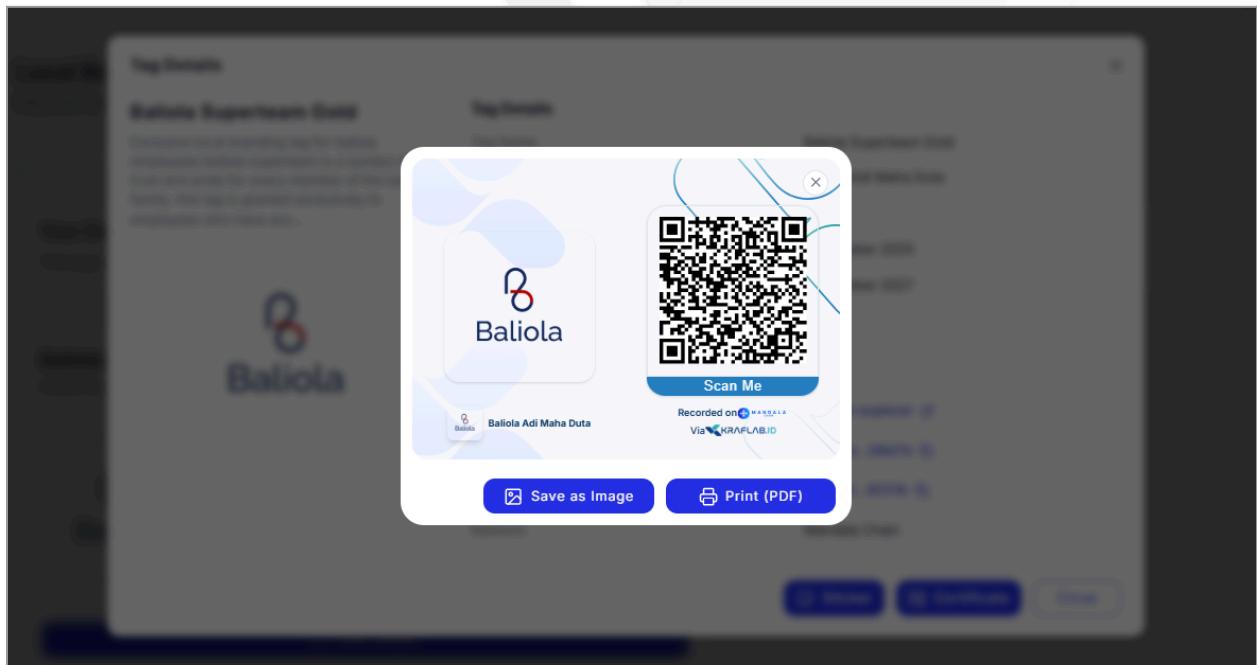

The digital certificate will show the following options:

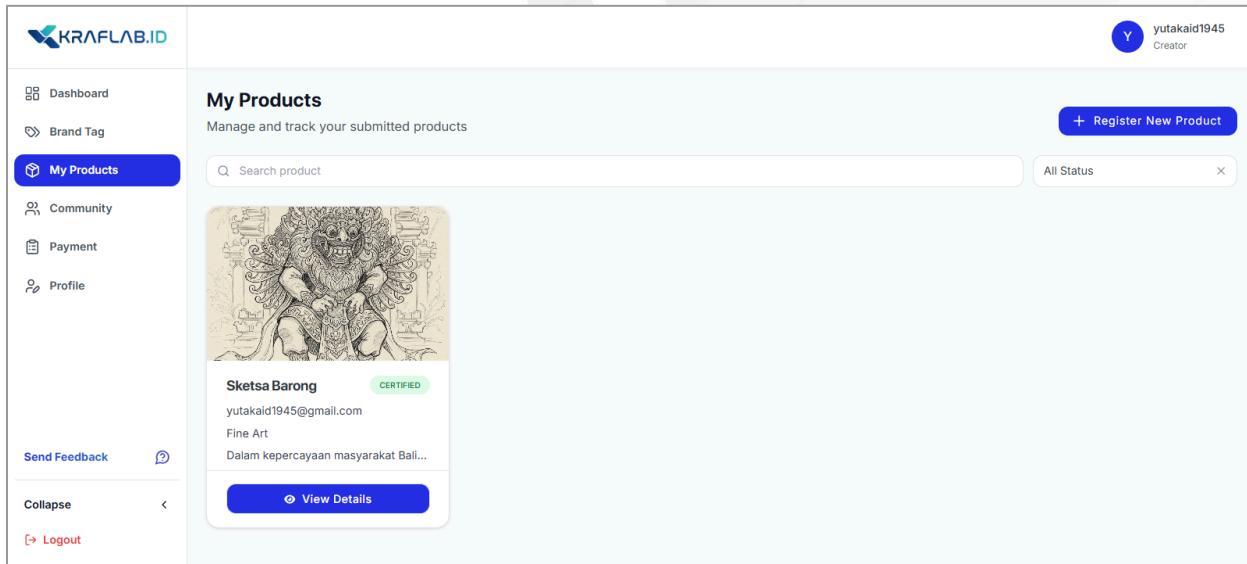

- **Save as Image:** Save the certificate as an image file (PNG/JPG) for digital use or manual printing.
- **Print (PDF):** Print the certificate in a neat PDF format, ready to be distributed as official proof and formal documentation.

### 3. Click the QR Code Sticker Button

The QR Code can be used as a digital verification sticker that can be affixed to physical products or packaging as proof of authenticity and blockchain certification.

## My Products

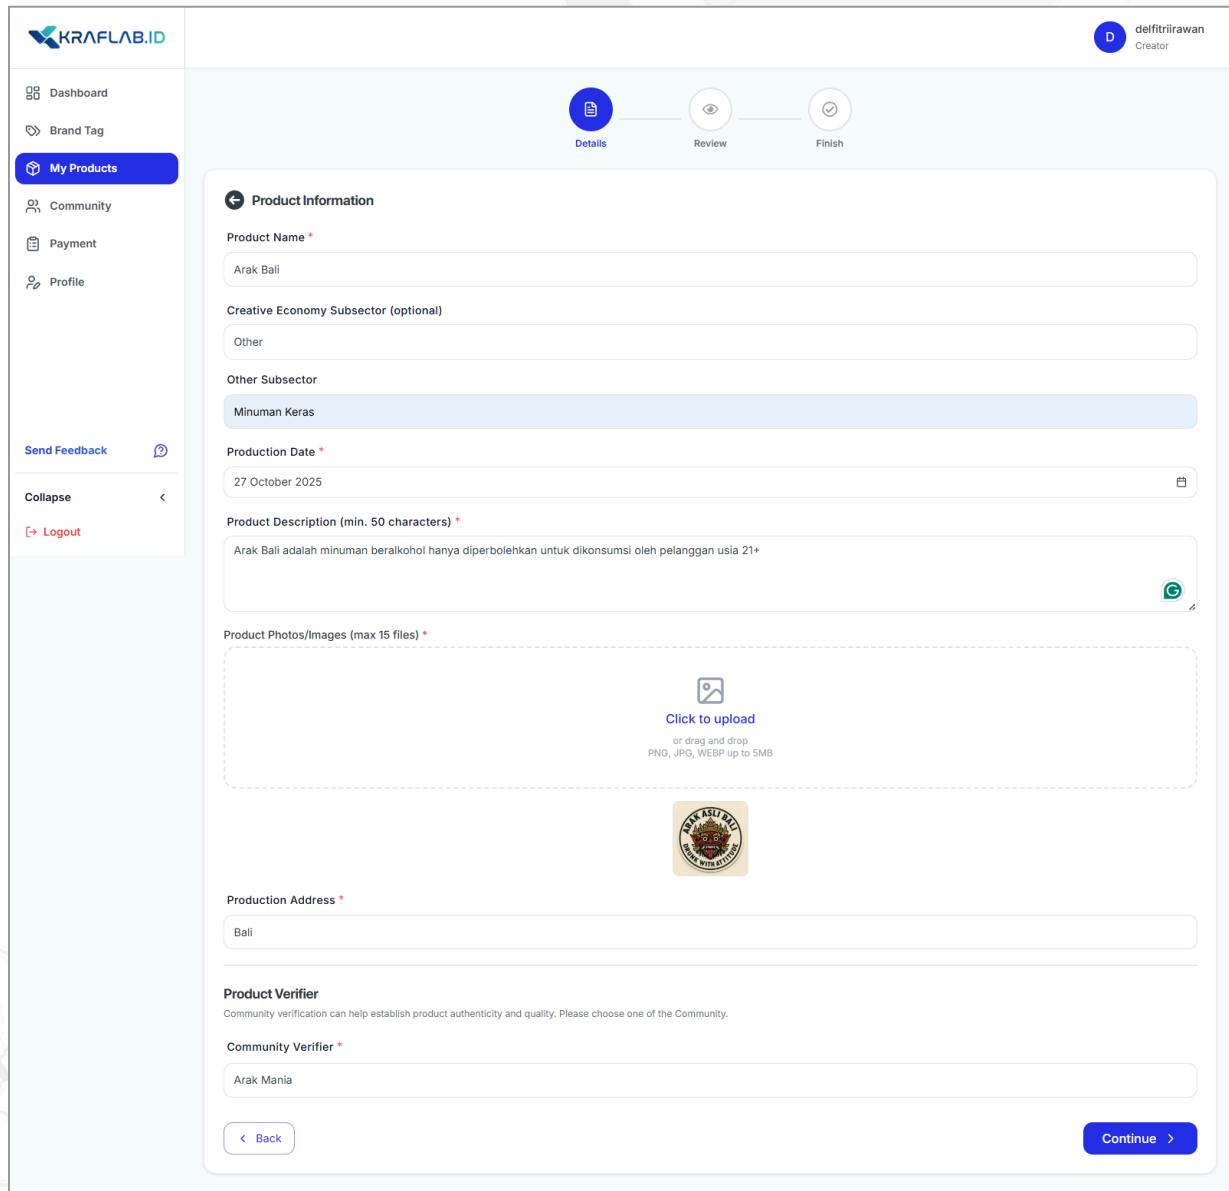

The screenshot shows the 'My Products' section of the Kraflab.id platform. On the left, a sidebar menu includes 'Dashboard', 'Brand Tag', 'My Products' (which is highlighted in blue), 'Community', 'Payment', and 'Profile'. Below these are 'Send Feedback' and 'Logout' buttons. The main area is titled 'My Products' and sub-titled 'Manage and track your submitted products'. It features a search bar and a 'All Status' dropdown. A product card for 'Sketsa Barong' is displayed, showing a certified status, the owner's email (yutakaid1945@gmail.com), the category (Fine Art), and a brief description (Dalam kepercayaan masyarakat Bali...). A 'View Details' button is at the bottom of the card. The top right corner shows a user profile for 'yutakaid1945' (Creator).

**My Products** is a feature designed to help you **manage and grow your creative product business professionally, organized, and transparently on the Kraflab.id platform**. You can view a list of submitted products along with their status—whether they are still under verification, certified, or require follow-up. **This makes it easier for you to manage and monitor the progress of each product in real time**. For each registered product, a summary of important information is available, such as product name, owner's email, product category, and a brief description.

## Register New Product

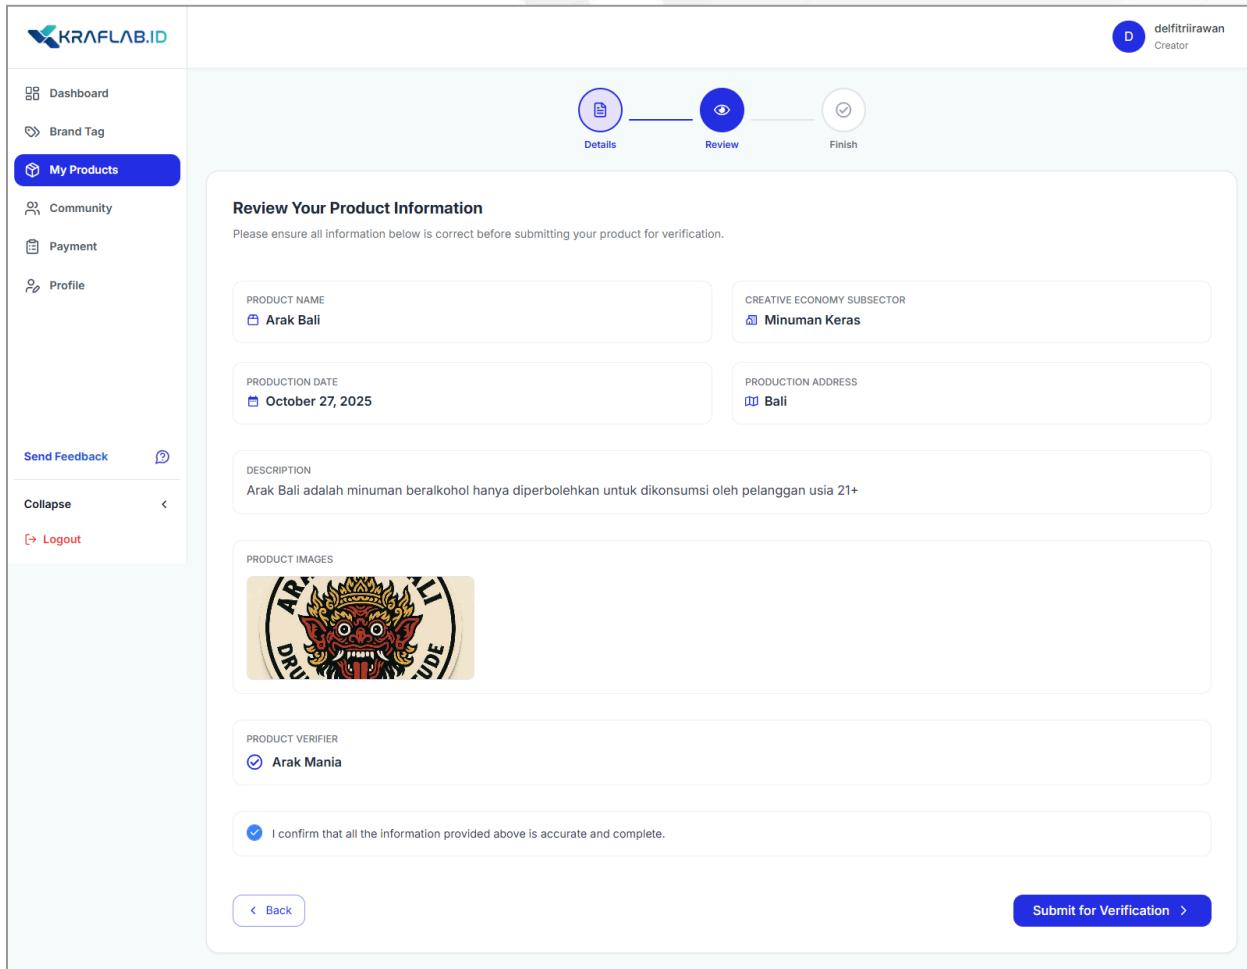

### Step 1 — Form Details

After clicking the **“Register New Product”** button located at the top right of the My Products page, you will be directed to the new product registration form.

- Complete all product data carefully and accurately according to the provided form.
- Make sure to fill in all fields marked with **(\*) as they are mandatory**.
- Upload the required supporting documents for the verification process so that your product can be assessed validly and officially.
- Ensure that the data you enter is complete and correct to speed up the verification process and avoid rejection due to incomplete information.

## Step 2 — Review Your Product Information

The screenshot shows the 'Review Your Product Information' page. The left sidebar includes 'Dashboard', 'Brand Tag', 'My Products' (selected), 'Community', 'Payment', and 'Profile'. The main content area has three circular navigation buttons: 'Details' (blue), 'Review' (blue with an eye icon), and 'Finish' (light blue with a checkmark). The 'Review' button is highlighted. The product details are as follows:

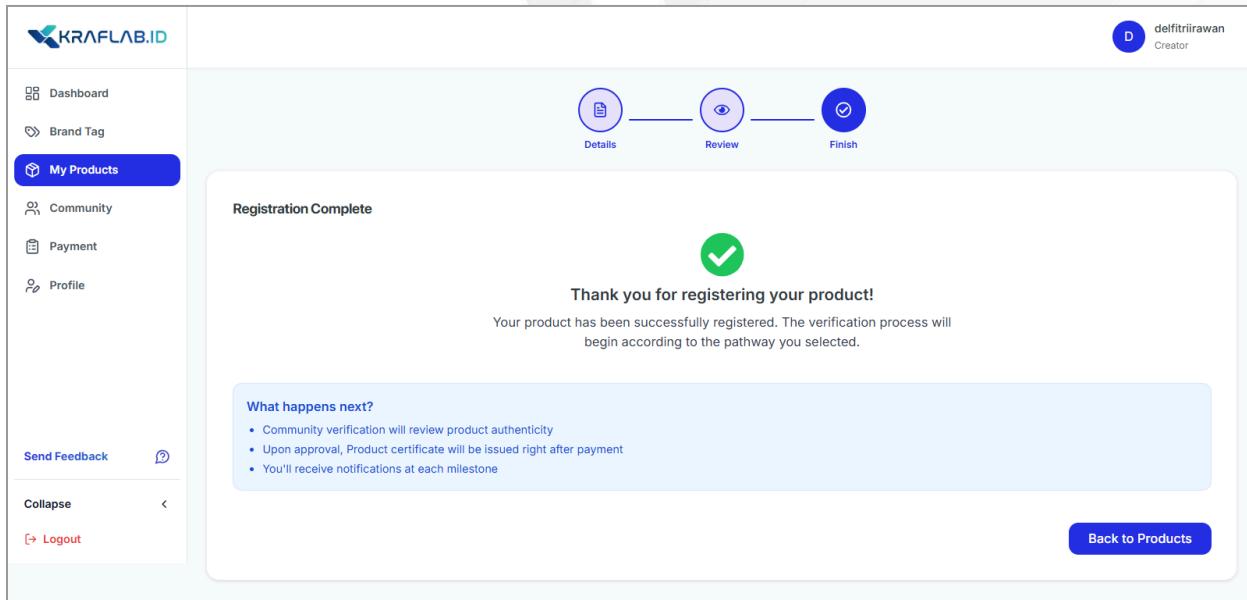

- PRODUCT NAME:** Arak Bali
- CREATIVE ECONOMY SUBSECTOR:** Minuman Keras
- PRODUCTION DATE:** October 27, 2025
- PRODUCTION ADDRESS:** Bali
- DESCRIPTION:** Arak Bali adalah minuman beralkohol hanya diperbolehkan untuk dikonsumsi oleh pelanggan usia 21+.
- PRODUCT IMAGES:** A circular logo featuring a traditional Balinese mask.
- PRODUCT VERIFIER:** Arak Mania

A checkbox for confirmation is checked, and a 'Submit for Verification' button is visible at the bottom right.

Next, you will be directed to the **Review Your Product Information** page, where you can double-check all the information you have entered:

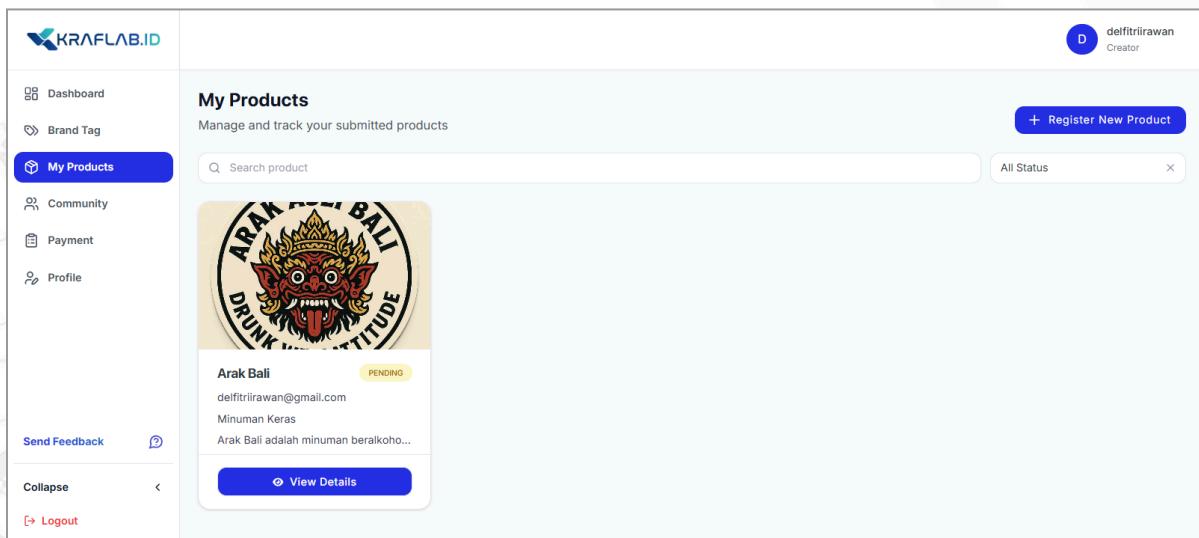

- Ensure that all the product data displayed is accurate and complete.
- Read carefully to avoid any errors that could delay the verification process.
- Provide your consent by checking the box **"I confirm that all the information provided above is accurate and complete."** as an acknowledgment that you are responsible for the validity of the submitted data.
- Click the **"Submit Verification"** button to send your product data and proceed to the verification stage.

## Step 3 — Finish

After your submission is successfully sent, you will receive a confirmation that the product registration process is complete.

- You can monitor the product status on the **My Products** page to see whether the product has been verified, rejected, or requires additional action.
- The newly registered product will automatically appear on the **My Products** page with a **Pending** status, indicating that it is still under verification by the relevant community or organization, as shown in the image below:

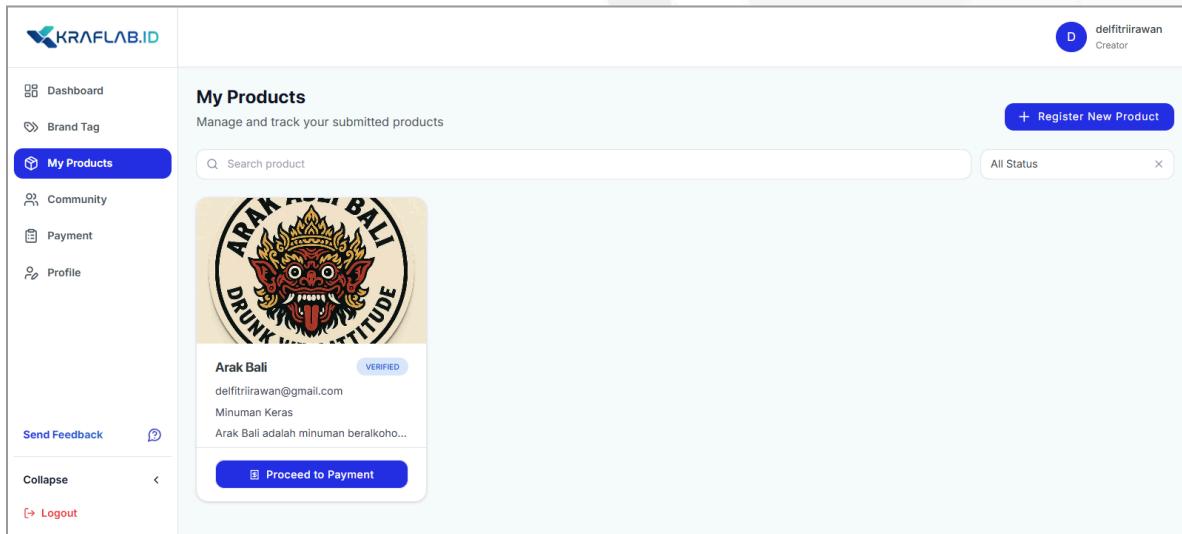

## Guide to Origin Certified Product (OCP) Payment Process

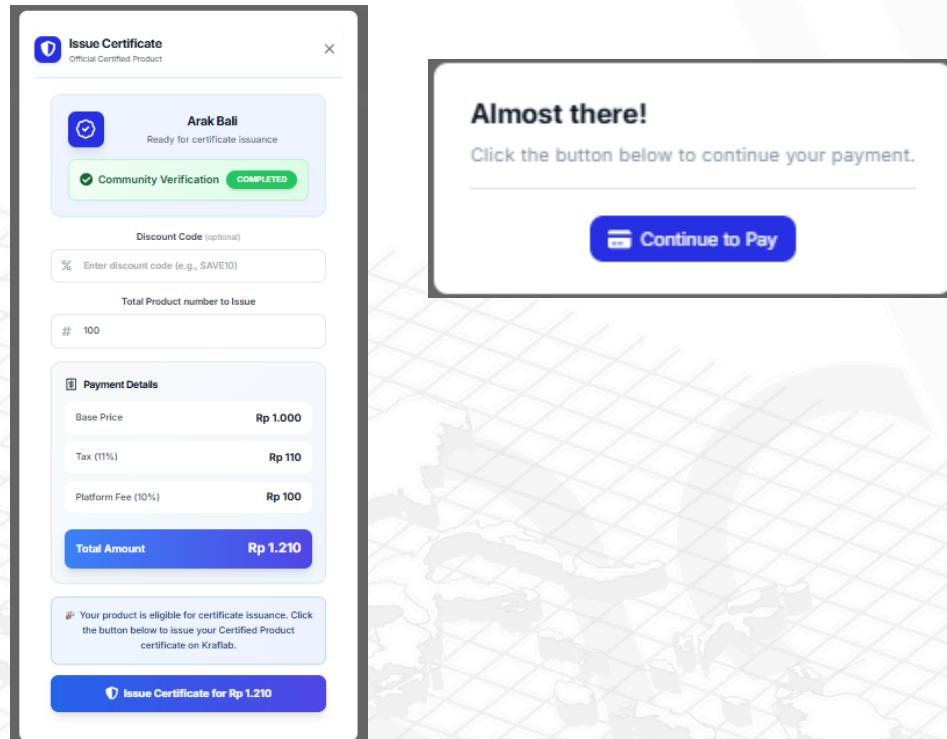

### 1. Product Status After Approval

Once your product is approved by the community on the **My Products** page, the product status will change to **Verified**.

At this status, you will see a **Proceed to Payment** button indicating that the next step is to make a payment to complete the certification process.

### 2. Make Payment Process

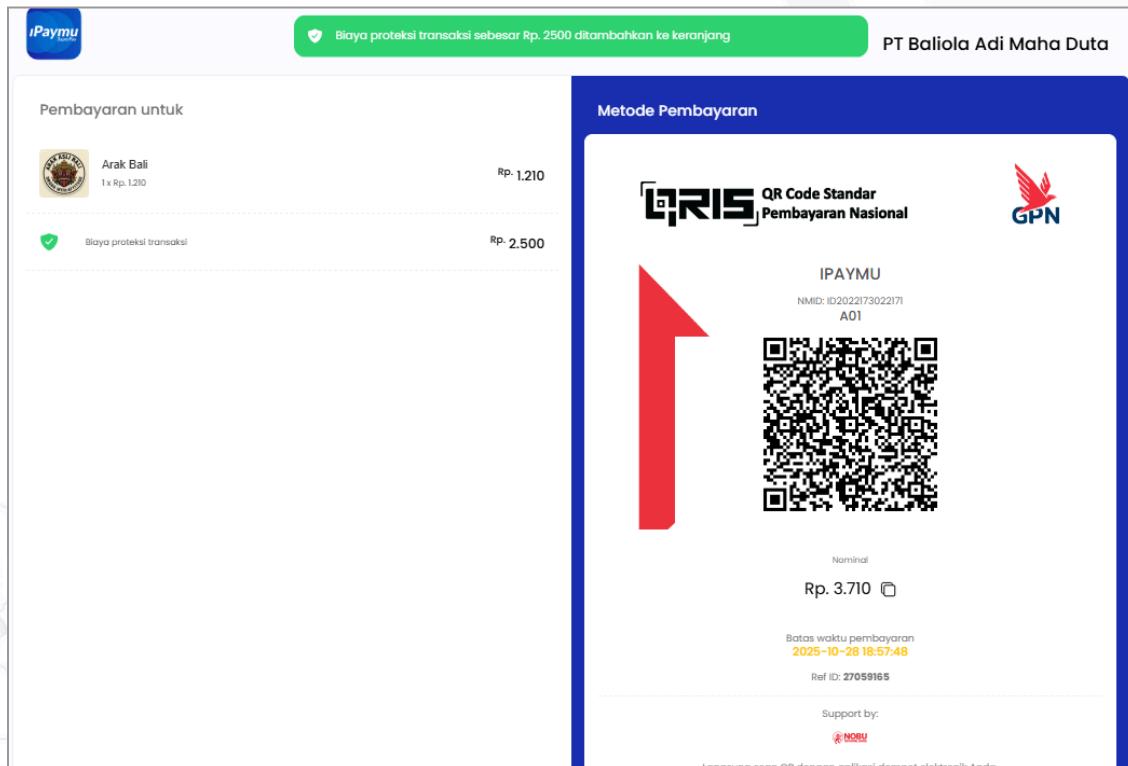

The image displays two screenshots of the payment process. The left screenshot shows the 'Issue Certificate' page for 'Arak Bali'. It includes a summary of the product, a 'Community Verification' status (COMPLETED), a discount code input field, a total product number (100), and a breakdown of payment details: Base Price (Rp 1.000), Tax (Rp 110), Platform Fee (Rp 100), and a Total Amount (Rp 1.210). A note at the bottom states, 'Your product is eligible for certificate issuance. Click the button below to issue your Certified Product certificate on Kraflab.' A blue 'Issue Certificate for Rp 1.210' button is at the bottom. The right screenshot shows a progress message: 'Almost there! Click the button below to continue your payment.' with a blue 'Continue to Pay' button.

By clicking the **Proceed to Payment** button, you will be redirected to the **iPaymu** payment page. Here, you can select the payment method that suits your needs.

### Available Payment Methods:

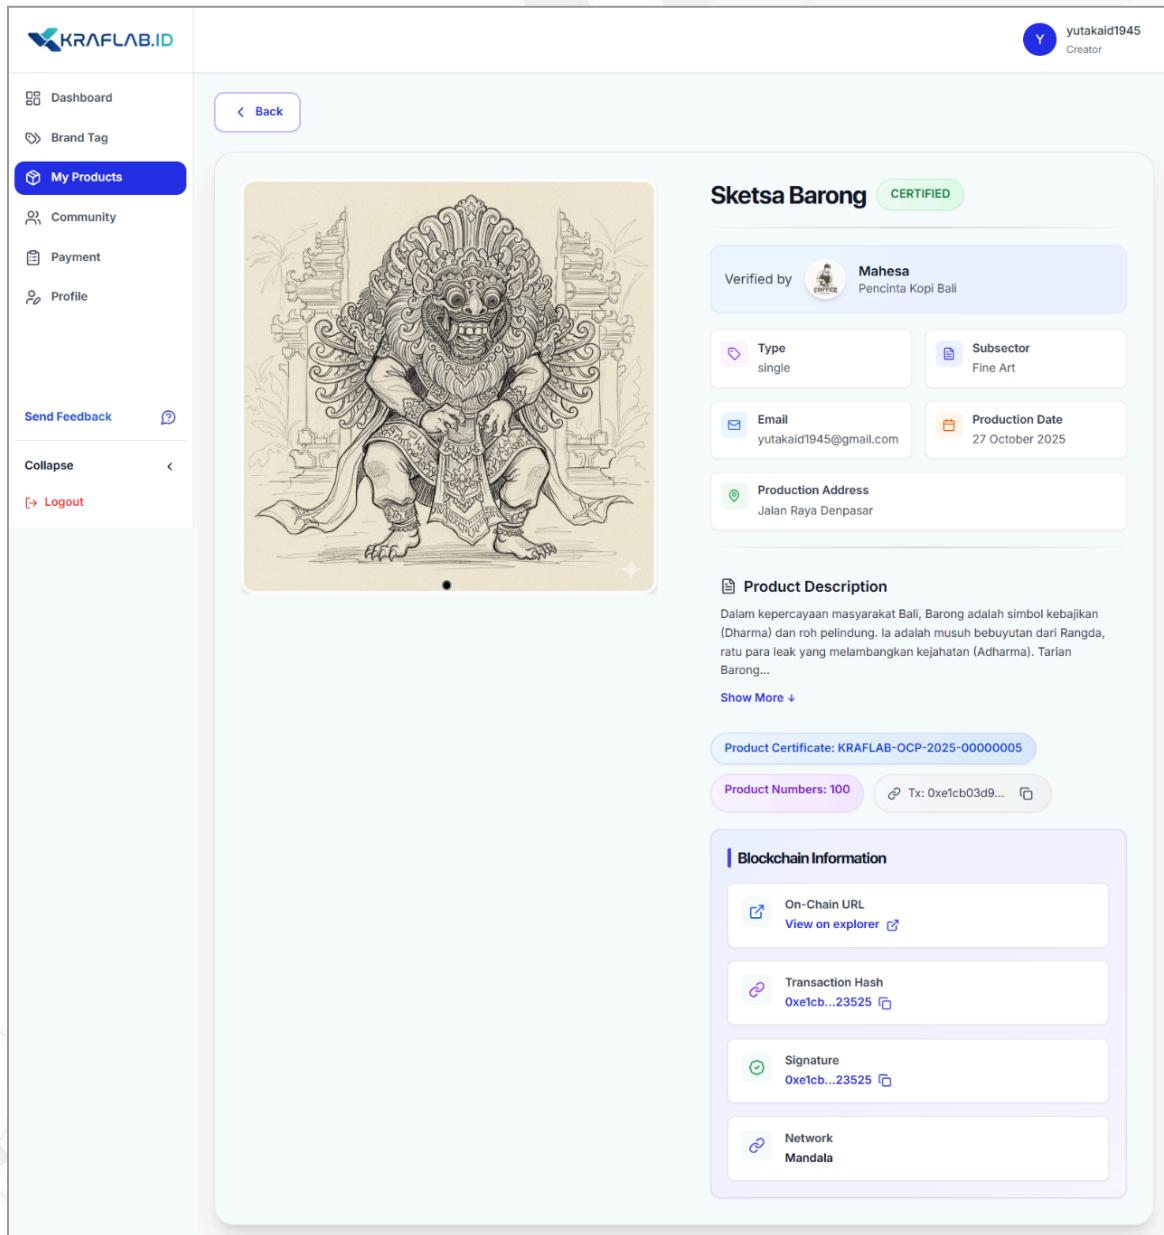

- **Virtual Account (VA):** Payment via a unique virtual account number linked to the service bank.
- **QRIS:** Payment via a unique virtual account number linked to the service bank.
- **Direct Debit:** Automatic debit directly from your bank account, providing convenience and security for recurring payments.
- **Convenience Store Payment:** You can make cash payments at partner stores such as Alfamart or Indomaret.

### 3. Payment Process:

- Choose your preferred payment method.
- Follow the detailed instructions provided for each selected method to complete the payment smoothly.
- Ensure you complete the payment before the deadline to avoid cancellation of the product certification process.

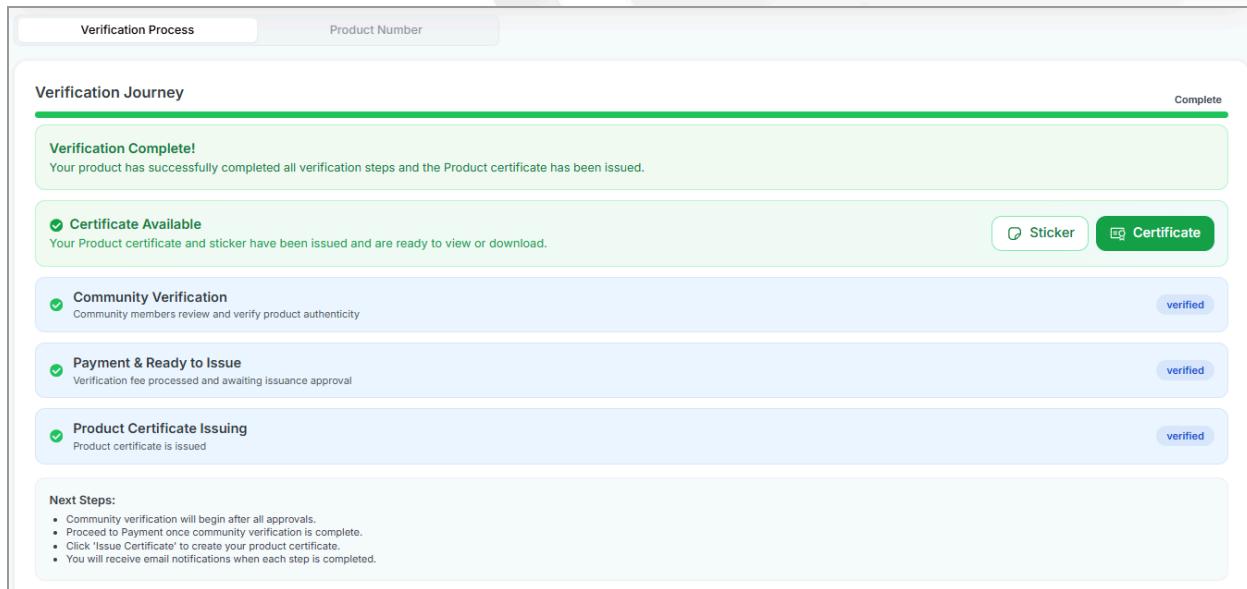

## View Details

The screenshot displays a product detail page for a 'Sketsa Barong' (Barong Sketch) on the Kraflab.ID platform. The page is structured as follows:

- Header:** Shows the Kraflab.ID logo, the creator's name 'yutakaid1945', and a 'Creator' badge.
- Left Sidebar:** Includes links for Dashboard, Brand Tag, My Products (highlighted in blue), Community, Payment, Profile, Send Feedback, Collapse, and Logout.
- Product Image:** A detailed black and white sketch of a Barong, a mythical creature from Balinese Hinduism.
- Product Title:** 'Sketsa Barong' with a 'CERTIFIED' badge.
- Product Verification:** Verified by 'Mahesa' (Pencinta Kopi Bali).
- Product Details:**
  - Type: single
  - Subsector: Fine Art
  - Email: yutakaid1945@gmail.com
  - Production Date: 27 October 2025
  - Production Address: Jalan Raya Denpasar
- Product Description:** A brief text explaining the Barong as a symbol of justice (Dharma) and protection (Roh Pelindung), and its connection to the Rangda and Adharma.
- Blockchain Information:**
  - On-Chain URL: [View on explorer](#)
  - Transaction Hash: 0xe1cb...23525
  - Signature: 0xe1cb...23525
  - Network: Mandala
- Bottom Navigation:** Includes a 'Product Certificate' (KRAFLAB-OCP-2025-00000005), 'Product Numbers: 100', and a transaction hash (Tx: 0xe1cb03d9...).

This page serves not only as a detailed product display but also as an **official digital document** that can be used as **proof of certification and product authenticity**. It provides transparent information to the public, consumers, and business partners, while linking local identities (regional products) with the blockchain system to support a sustainable creative economy ecosystem.

**Verification Journey** Complete

**Verification Complete!**  
Your product has successfully completed all verification steps and the Product certificate has been issued.

**Certificate Available**  
Your Product certificate and sticker have been issued and are ready to view or download.

**Community Verification**  
Community members review and verify product authenticity verified

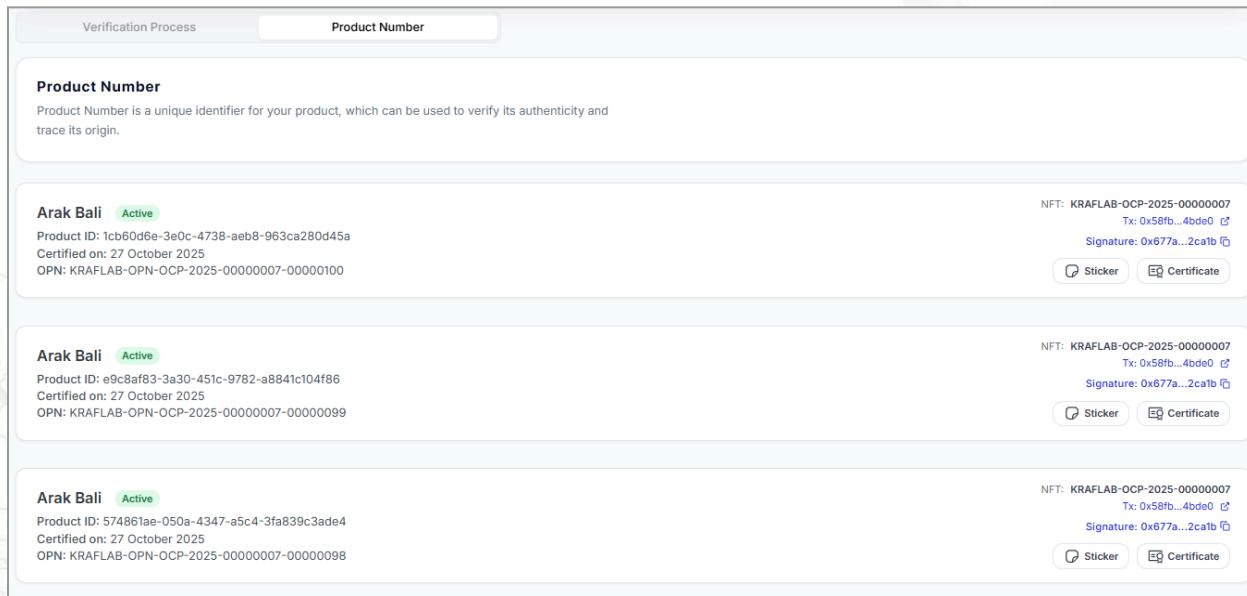

**Payment & Ready to Issue**  
Verification fee processed and awaiting issuance approval verified

**Product Certificate Issuing**  
Product certificate is issued verified

**Next Steps:**

- Community verification will begin after all approvals.
- Proceed to Payment once community verification is complete.
- Click 'Issue Certificate' to create your product certificate.
- You will receive email notifications when each step is completed.

**Verification Journey** displays the complete history of the product verification process on the Kraflab platform, starting from the community review stage to the issuance of the official blockchain-based certificate. This feature provides transparency, clear status updates, and assurance of authenticity for the product certification process to creators.

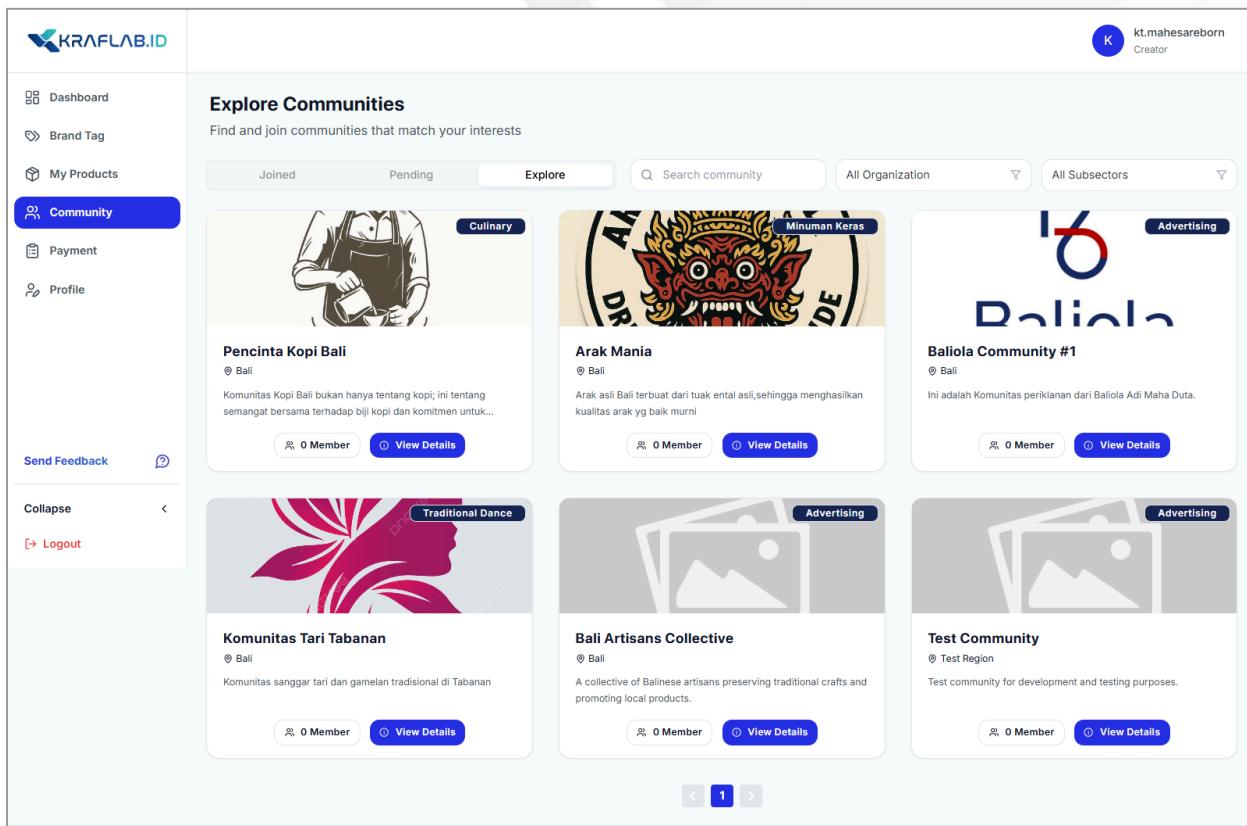

**Product Number**

Product Number is a unique identifier for your product, which can be used to verify its authenticity and trace its origin.

Product ID	Active	NFT	Sticker	Certificate
Arak Bali	Active	KRAFLAB-OCP-2025-00000007 Tx: 0x5fb...4bde0 Signature: 0x677a...2ca1b	<a href="#">Sticker</a>	<a href="#">Certificate</a>
Arak Bali	Active	KRAFLAB-OCP-2025-00000007 Tx: 0x5fb...4bde0 Signature: 0x677a...2ca1b	<a href="#">Sticker</a>	<a href="#">Certificate</a>
Arak Bali	Active	KRAFLAB-OCP-2025-00000007 Tx: 0x5fb...4bde0 Signature: 0x677a...2ca1b	<a href="#">Sticker</a>	<a href="#">Certificate</a>

**Product Number** feature displays a list of unique digital identities for each product certified through the Kraflab system. Every product that passes the verification process automatically receives an **Origin Product Number (OPN)**—a unique blockchain-based code that guarantees the authenticity, transparency, and traceability of the product from its original source.

# Community

The screenshot shows the 'Explore Communities' section of the Kraflab.ID platform. On the left, a sidebar includes links for Dashboard, Brand Tag, My Products, Community (which is highlighted in blue), Payment, and Profile. The main area has a search bar and filters for 'All Organization' and 'All Subsectors'. It displays six community profiles in a grid:

- Pencinta Kopi Bali** (Culinary): A profile for coffee enthusiasts in Bali, showing 0 members.
- Arak Mania** (Minuman Keras): A profile for traditional Balinese arak, showing 0 members.
- Baliola Community #1** (Advertising): A profile for Baliola Adi Maha Duta, showing 0 members.
- Komunitas Tari Tabanan** (Traditional Dance): A profile for traditional dance in Tabanan, showing 0 members.
- Bali Artisans Collective** (Advertising): A profile for artisans preserving traditional crafts, showing 0 members.
- Test Community** (Test Region): A profile for testing purposes, showing 0 members.

In the **Community** feature, you can explore communities that match your interests and field, join communities to build new networks, view complete community profiles—including subsector, location, and member count—and browse the **Product Showcase** to enjoy works presented by the communities.

Here is a step-by-step guide:

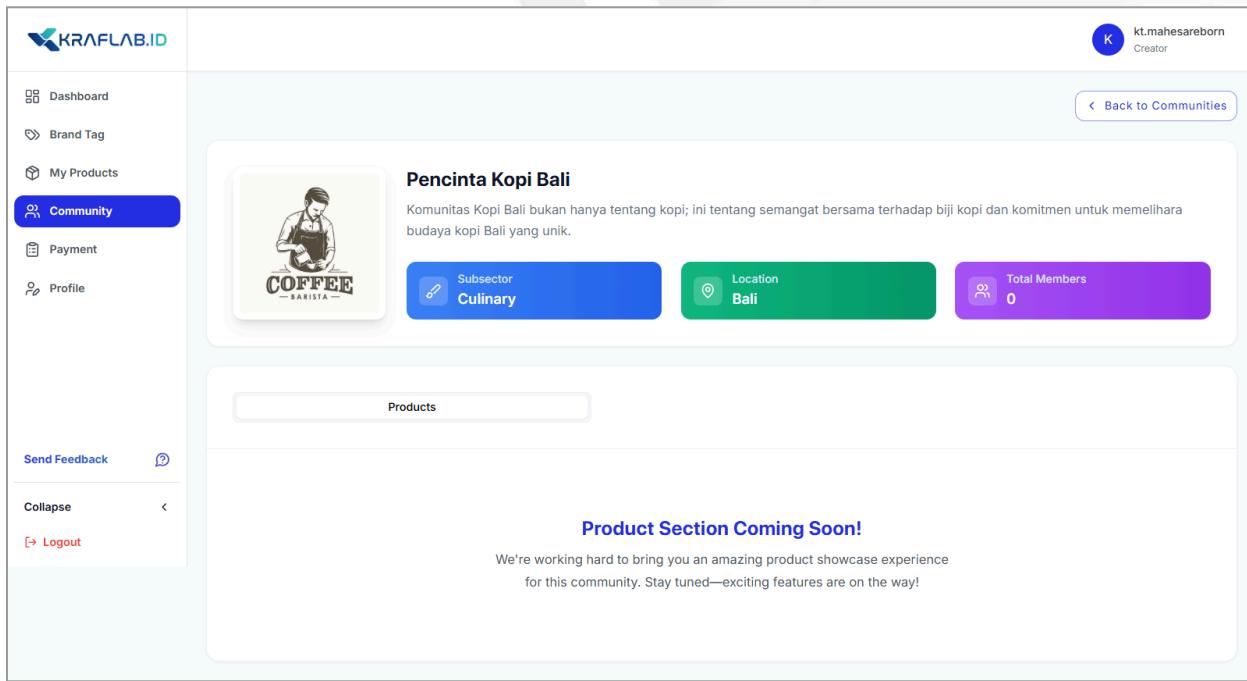

## Explore Communities

When you click on the **Community** feature, the Explore Communities page will appear. Below are explanations of some functions within this feature:

- **Search Community Name:** To search for a specific community by name.
- **Filter Subsector:** Helps you find communities based on subsectors.
- **Joined / Pending / Explore:** These three main tabs are used to view your community status:
  - **Joined:** Communities you have already joined.
  - **Pending:** Communities awaiting membership verification approval.
  - **Explore:** A list of communities available to explore and join.

To see more details, click the **View Details** button on the community you choose.

## Detail Community

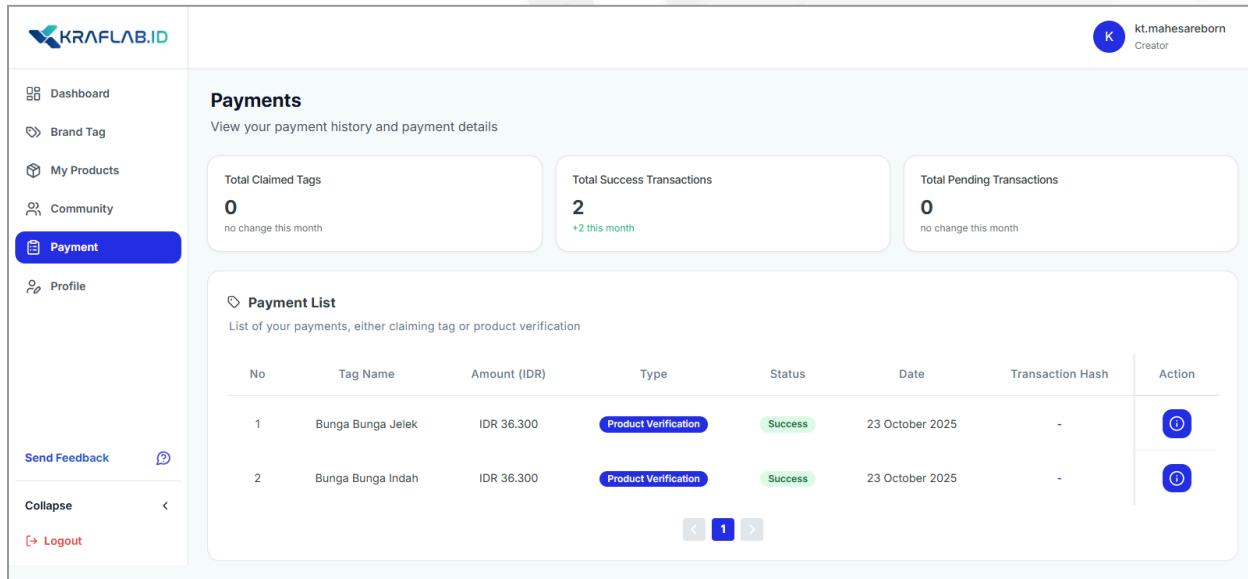

The screenshot shows the 'Detail Community' page for 'Pencinta Kopi Bali'. The left sidebar includes links for Dashboard, Brand Tag, My Products, Community (which is highlighted in blue), Payment, and Profile. The main content area displays the community name 'Pencinta Kopi Bali', a brief description about coffee culture, and three colored cards: blue for 'Subsector Culinary', green for 'Location Bali', and purple for 'Total Members 0'. Below these, a placeholder message for the product section is shown, stating 'Product Section Coming Soon!' and 'We're working hard to bring you an amazing product showcase experience for this community. Stay tuned—exciting features are on the way!'. The top right corner shows the user's profile icon and the text 'kt.mahesareborn Creator'.

After selecting a specific community, you will be directed to the **Detail Community** page. On this page, you can view comprehensive information about the community, such as:

- **Community Name:** For example, Pecinta Kopi Bali.
- **Brief Description:** An explanation about the community.
- **Subsector:** The community category, such as Culinary.
- **Location:** The community's location.
- **Total Members:** The number of members in the community.

**Product Section:** currently, the product feature is under development (Coming Soon). In the future, communities will be able to showcase products or works from their members to increase visibility and accessibility to the public.

# Payment

No	Tag Name	Amount (IDR)	Type	Status	Date	Transaction Hash	Action
1	Bunga Bunga Jelek	IDR 36,300	Product Verification	Success	23 October 2025	-	
2	Bunga Bunga Indah	IDR 36,300	Product Verification	Success	23 October 2025	-	

**The Payment** feature serves as the central hub for your financial information on Kraflab. All transactions related to the platform—whether payments for Brand Tag services, memberships, or digital products—are recorded here.

The following explains the information on the features:

## Payment Overview

- **Total Claimed Tags:** the number of Brand Tag transactions successfully processed
- **Total Success Transactions:** transactions that have been successfully verified by the system.
- **Total Pending Transactions:** transactions still awaiting confirmation.

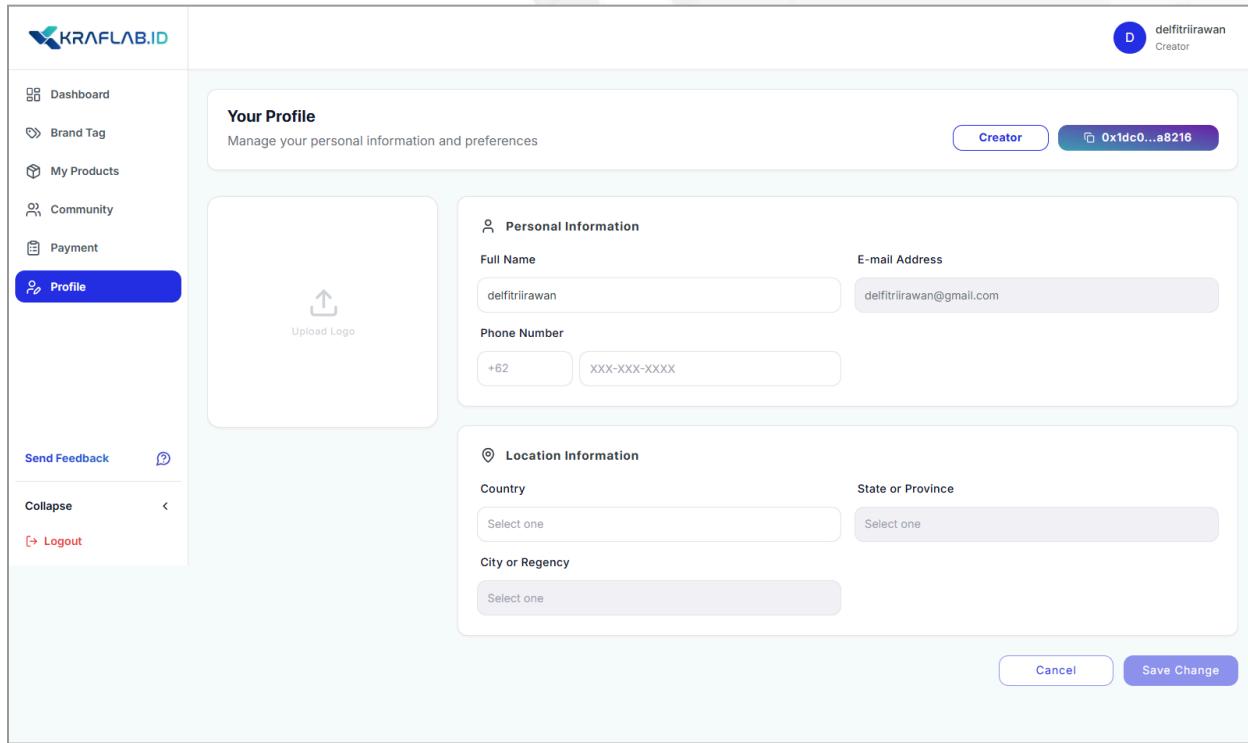

## Payment List

This table contains detailed information about your transactions. Each column provides the following details:

- **Transaction Name / Tag Name**, the name or label of the transaction for easy identification.
- **Amount**, the billed amount.
- **Type**, the category or type of transaction.
- **Transaction Status (Pending, Success, Failed)**
- **Transaction Status**, status of the transaction (Pending, Success, Failed).
- **Transaction Hash**, the unique transaction identifier on the blockchain network.

**Action Button**, to view transaction details or payment proof.

## Profile

**Profile** page is used to manage and display your personal account information, including contact details and account preferences such as your full name, phone number, and location information, including country, province, and city or district of residence. You can also upload a profile photo or logo to clearly represent your identity on the platform. Ensure your account data is **always up-to-date, valid, and easily identifiable to facilitate communication and verification processes.**

After making any changes, click the **“Save Change”** button to save your updates.
